AMERICAN JOURNAL OF

# DISEASES OF CHILDREN

**VOLUME 100**

JULY THROUGH DECEMBER, 1960

**AMERICAN MEDICAL ASSOCIATION Publication**

# AUTHOR AND TITLE INDEX TO VOLUME 100

In this Index in alphabetical order are the names of the authors of all articles and the senior presenters of cases in Society Transactions, followed by the title of the article or case presented and the page numbers on which their articles or cases begin. The asterisk (*) preceding the page number indicates an original article, case report, review article, or special article. Page numbers in the Index refer to bold face (dark) page numbers in the text.

For Subject Index see page [217/987].

## A

**Abramson, D. J.**: Perforation of Meckel's diverticulum, peritonitis, and intestinal obstruction in newborn with survival: Meckel's diverticulum in siblings, *277 (Ag)

**Adams, F. H.; Assali, N.; Cushman, M., and Westersten, A.**: Effect of changes in maternal blood flow on fetal lamb, 561 (O)

**Dixon, W.; Linde, L. M.; Mujake, H.; Huggins, M., and Berven, H.**: Physical "working capacity" in normal California and Swedish school children, 728 (N)

**Adams, J. M.; Imagawa, D. T., and Tawara, J.**: Measles, distemper and rinderpest complex: preliminary vaccination studies, 689 (N)

**Ainger, L. E.; Harper, W. H.; Fitch, C. W., and Lane, N. K.**: Hemodynamic studies in subendocardial fibroelastosis, 562 (O)

**Pate, J. W.; Harper, W. H.; Fitch, C. W., and Lane, N. K.**: Some unusual manifestations of congenital heart lesions, 562 (O)

**Somerville, B.; Fitch, C. W.; Lane, N. K., and Harper, W. H.**: Corticosteroid therapy of acute nonrheumatic myocarditis, 737 (N)

**Alexander, D. S., and Ferguson-Smith, M. A.**: Clinical, pathological and chromosomal studies in male pseudohermaphroditism and other abnormalities of sex differentiation, 563 (O)

**Allansmith, M., and Senz, E.**: Chondrodystrophia congenita punctata (Conradi's disease): review of literature and report of case with unusual features, *109 (Jl)

**Allen, D. M., and Diamond, L. K.**: Congenital hypoplastic anemia, cortisone treated, 748 (N)

**Allen, J. E., and Rodgin, D. W.**: Mental retardation in association with progressive muscular dystrophy, *208 (Ag)

**Allen, R. J.; Gibson, R. M., and Sutton, H. E.**: Phenylketonuria with normal intelligence, 563 (O)

**American Trudeau Society.** Committee on Tuberculosis and Respiratory Diseases in Children: Treatment of tuberculosis in children, *424 (S)

**Ames, M. D.**: Gastric acidity in first ten days of life of prematurely born baby, *252 (Ag)

**Anastasea-Vlahou, C.**: See **Cassimos, C.**, jt. auth.

**Anderson, J. P.**: Prolonged steroid therapy in childhood asthma, *341 (S)

**Arnold, J. H.; Medearis, D. N., and Enders, J. F.**: Thermal inactivation of poliovirus, 564 (O)

**Auld, P. A. M.; Nelson, N. M.; Cherry, R. B., and Smith, C. A.**: Measurement of functional residual capacity and "total lung capacity" in newborn infant, 564 (O)

**Avery, M. E.**: Percutaneous oxygen uptake in infants, 565 (O)

**Ayoub, E. M.; Vernier, R. L., and Wannamaker, L. W.**: Streptococcal antibody titers in patients with chronic glomerulonephritis, 766 (N)

## B

**Bailey, C. P., and Lemmon, W. M.**: Surgical approach to problem of complete transposition of great arteries, 738 (N)

**Baker, D.; Adlerstein, A.; Boggs, T. R., Jr.; Kennedy, C., and Davidson, D. T., Jr.**: Evaluation of neurological sequelae of erythroblastosis fetalis in five-year follow-up study, 565 (O)

**Barbero, G. J.; Chernick, W. S., and Sibinga, M. S.**: Submaxillary gland enlargement in cystic fibrosis, 566 (O)

**Bargeron, L. M., Jr.; Clark, L. C., Jr., and McArthur, K. T.**: Detection of intracardiac shunts in infants by use of intravascular potentiometric electrodes, 502 (O)

**Barnett, H. L.**: Attitudes in pediatric research [presidential address, Society for Pediatric Research], *459 (O)

**Baron, S.; Nasou, J. P.; Owen, G. M., and Barnett, E. V.**: Antibody response of hypogammaglobulinemic patients given poliomyelitis vaccine, 566 (O)

**Barreda, A.: See Neumann, C. G., jt. auth.**

**Batson, R.: See Merrill, R. E., jt. auth.**

**Bauman, W. A.:** Early fluid administration in respiratory distress syndrome of premature infants, 567 (O)

**Beierwaltes, W. H.: See Spafford, N. R., jt. auth.**

**Benirschke, K.: See Driscoll, S. G., jt. auth.**

**Bensel, A.:** Treatment of tinea capitis in children with griseofulvin, 131 (Jl)

**Bentley, H. P., Jr.: See Krivit, W., jt. auth.**

**Berg, R. B., and Rosenthal, M. S.:** In vitro cultivation of cells from human bone marrow, 568 (O)

**Bergstrom, W. H.; Ruva, F., and Churgin, S.:** Effects of nephrectomy on body composition in rat, 568 (O)

**Bernstein, J., and Brown, A. K.:** Sepsis and jaundice in infancy, 569 (O)

**Bernstein, S. H., and Stillerman, M.:** Significance of changing pattern of beta-hemolytic streptococci, 570 (O)

**Berry, H. K., and Sutherland, B. S.:** "Tyrosinosis" in infant, 571 (O)

**Sutherland, B. S., and Guest, G. M.:** Detection of metabolic disorders among young infants; case-finding program, 570 (O)

**Bessman, S. P.; Ivens, I.; Shirey, R. G., and Clemmens, R. L.:** Analysis of anion tolerance tests in fibrocytic disease of pancreas, 571 (O)

**and Toyoda, M.:** Intracellular role of insulin in protein synthesis in muscle: new theory of insulin action, 471 (O)

**Bick, E. M.:** Congenital deformities of musculoskeletal system noted in newborn, *861 (D)

**Black, F. L.: See Katz, S. L., jt. auth.**

**Blanc, W. A.:** Premature closure of ductus venosus, 572 (O)

**and Baens, G.:** Ear malformations, abnormal facies, and genitourinary tract anomalies, 781 (N)

**Blatman, S.; Perez, D., and Alexander, H. E.:** Primary pulmonary tuberculosis in young children: microbiological, x-ray, and tuberculin allergy evaluation, 697 (N)

**and Schaefer, W. B.:** Anonymous mycobacteria, 572 (O)

**Boggs, J. D., and Stern, J. R.:** Studies on mechanism of aminonucleoside nephrosis in rats, 559 (O)

**Borovsky, M. P.:** Antipyretic activity of acetylsalicylic acid and salicylamide suspension in pediatrics: comparative clinical evaluation in two hundred six cases, *23 (Jl)

**Bracken, E. C.:** Characterization of equine abortion virus (EAV) as research laboratory virus, 535 (O)

**Braid, B.: See O'Brien, D., jt. auth.**

**Brandt, I. K.:** Hippurate synthesis in newborn rat, 538 (O)

**Breese, B. B.; Disney, F. A., and Talpey, W. B.:** Prevention of type specific immunity to streptococcal infections due to therapeutic use of penicillin: occurrence of second attacks due to same type of group A hemolytic streptococci, *353 (S); 692 (N)

**Breibart, S.; Lee, J. S.; McCoord, A., and Forbes, G. B.:** Exchange of radioactive magnesium in bone: relation to age, 573 (O)

**Brent, R. L.:** Indirect effect of irradiation on embryonic development: II. irradiation of placenta, *103 (Jl)

**and Franklin, J. B.:** Vascular clamping of pregnant uterus: amphoteric procedure for study of congenital malformations, 778 (N)

**and McLaughlin, M. M.:** Indirect effect of irradiation on embryonic development: I. irradiation of mother while shielding embryonic site, *94 (Jl)

**Bright, N. H., and Holliday, M. A.:** Response of newborns to water loads, 574 (O)

**Brown, A. K., and McGaughey, H. S., Jr.:** Observations on maternal, fetal, and placental bilirubin concentrations at time of delivery, 574 (O)

**Bruns, W. T.; Loken, K. O., and Siebens, A. A.:** Respiratory rate, tidal volume, and ventilation of newborn infants in prone and supine position, 575 (O)

**Bucci, G.; Cook, C. D., and Barrie, H. M.:** Lung diffusing capacity, pulmonary capillary blood volume, and pulmonary membrane resistance in congenital heart disease, 742 (N)

**Burke, E. C.; Mills, S. D., and Stickler, B. B.:** Nephritis associated with anaphylactoid purpura: clinical observations and prognosis, 768 (N)

**Butterfield, J., and Ibbott, F.:** Balance study as adjunct to postoperative management of newborn infant, 575 (O)

**Byers, R. K.: See Janeway, C., jt. auth.**

## C

**Caddell, J. L.; Friedman, S., and Johnson, J.:** Constrictive pericarditis: occurrence in child one month following acute pericarditis with effusion, *850 (D)

**Calcagno, P. L., and Rubin, M. I.:** Vitamin D-resistant rickets with aminoaciduria and without hyperphosphaturia, 716 (N)

**Rubin, M. I., and Bruck, E.:** True effective renal plasma flow and filtration fraction in young infants as determined by extraction ratios with renal vein catherization, 576 (O)

**Camacho, A. M., and Blizzard, R. M.:** Congenital hypokalemia of renal origin due to inherited metabolic defect, 713 (N)

**Camin, A. J.; Dorfman, R. I.; McDonald, J. H., and Rosenthal, I. M.:** Interstitial cell tumor of testis in seven-year-old child, *389 (S)

**Canby, J. P.:** Vertebral erosion secondary to cardiomegaly: case report of aberrant left coronary artery, *121 (Jl)

**Cann, H. M., and Verhulst, H. L.:** Fatal acute chloroquine poisoning in young children, 797 (N)

**and Verhulst, H. L.:** Fatality from acute dinitrophenol derivative poisoning, *947 (D)

**and Verhulst, H. L.:** Toxicity of household soap and detergent products and treatment of their ingestion, *287 (Ag)

**Carney, K., and Cheung, C.-S.:** Studies on effects of prolonged oral neomycin therapy in premature infant, 577 (O)

**Carr, E. A., Jr.:** See **Spafford, N. R.,** jt. auth.

**Cassimos, C.; Anastasea-Vlahou, C.; Kattamis, C., and Kanavakis, E.:** Aldrich's syndrome (thrombocytopenia, eczema, and recurrent infections), *914 (D)

**Cayler, G. G., and Honick, G. L.:** Incomplete transposition of great vessels (Taussig-Bing complex): physiological study of five cases, 739 (N)

**Cheek, D. B., and Holt, A. B.:** Bioassay for aldosterone using total body K/Na ratio in normal mouse receiving saline, 577 (O)

**Cherry, J. D., and Yuceoglu, A. M.:** Fatal hypertension in four and one-half-month-old child with elevated urinary aldosterone values and renal arterial malformation, 578 (O)

**Cheung, C.-S.:** See **Finberg, L.,** jt. auth.

**Citlin, D., and Hughes, W. L.:** Absorption and excretion of copper in mice, 716 (N)

**Cleveland, W. W., and Migeon, C. J.:** Response to 11-hydroxylase inhibitor (SU-4885) in patients with adrenal hyperplasia and their parents, 473 (O)

**Cochrane, W. A.; Morse, W. I., and Landrigan, P.:** Familial hypoparathyroidism with pernicious anemia and adrenal insufficiency related to intestinal dysfunction, 544 (O)

**Cohen, J., and Sledge, C. B.:** Diastematomyelia: embryological interpretation with report of case, *257 (Ag)

**Cohen, S.; Sweet, A. Y.; Mautner, W.; Churg, J., and Grishman, E.:** Light and electron microscopy of lead nephropathy, 559 (O)

**Colle, E.; Greenberg, L., and Krivit, W.:** Specific deficiency of cyanocobalamin (vitamin $B_{12}$) absorption, 523 (O)

**Comboes, M. A., and Clark, W. K.:** Sciatic nerve injury following intragluteal injection: pathogenesis and prevention, 579 (O)

**Cone, T. E., Jr.:** De Pondere Infantum Recens Natorum or On the weight of newborn infant, 794 (N)

Genetic implications of familial pheochromocytoma, 781 (N)

**Cook, C. D.; Barrie, H. M.; Helliesen, P. J., and DeForest, S. A.:** Lung volumes and mechanics of respiration in congenital heart disease, 579 (O)

**Cornblath, M.; Nicolopoulos, D.; Ganzon, A. F.; Gordon, M. H., and Gordon, H. H.:** Effect of glucagon on capillary blood sugar of infants born to normal and diabetic mothers, 580 (O)

**Cortner, J. A.; Chung, M., and Woodruff, C. W.:** Blood volume and ferrokinetics in iron deficiency, 521 (O)

**Coughlin, F. E., and Husson, G. S.:** Effect of hypoxia on closure of ductus arteriosus in chick, 531 (O)

**Cowger, M. L.:** See **Hayles, A. B.,** jt. auth.

**Cramblett, H. G., and Fomon, S. J.:** Unpredictability of response of infants to injections of Salk poliomyelitis vaccine, 691 (N)

**and Heeren, R. H.:** Failure to isolate virus from specimens of children with erythema infectiosum, 580 (O)

**Kasel, J. A.; Langmack, M., and Wilken, F. D.:** Illnesses in children infected with adenovirus antigenically related to Types 9 and 15, 691 (N)

**Langmack, M., and Wilken, F. D.:** Transplacental transfer of neutralizing antibodies against ECHO virus Types 1, 2, 8, and 20, 533 (O)

**Crawford, J. D.; Welsh, M. L., and Frost, L. R.:** Saluretic sulfonamides: relation between molecular structure and biological activity, 762 (N)

**Crawford, L. V., and Grogan, F. T.:** Immunochemical analysis of cow's milk and protein fractions from milk by serum-agar precipitation, 581 (O)

**Crotty, J. J., and Berman, L. B.:** Obstructive polyuria, 581 (O)

**Curtis, G. W.: See Driscoll, S. G.,** jt. auth.

D

**Daeschner, C. W., Jr.: See Kay, J. L.,** jt. auth.

**Dajani, H.; McIndoe, D., and McElfresh, A. E.:** Urinary leucine-amino peptidase as index of hemolysis, 523 (O)

**Davies, E. A., and Hasselmeyer, E.:** Study of premature infants fed cold formulas, 795 (N)

**Davison, W. C.:** Sweating sickness, 934 (D)

**Dawson, S. P.; Hickman, R. O., and Kelley, V. C.:** Galactosemia: genetic study of four generations by enzyme assay, *69 (Jl)

**Dekaban, A.:** Idiopathic epilepsy in early infancy: question of frequent daily attacks causing undifferentiated type of mental deficiency, *181 (Ag)

**DeMuth, G. R.; Howatt, W., and Talner, N.:** Intrapulmonary gas distribution in cystic fibrosis, 582 (O)

**Denning, C. R., and Bruce, G. M.:** Further observations on eye findings in cystic fibrosis, 583 (O)

**Desmond, M. M.: See Kay, J. L.,** jt. auth.

**Diehl, A. M.; Dale, A.; Hamilton, T. R., and Snyder, I.:** Study of streptococcal infections in rheumatic children and their siblings, 583 (O)

**DiGeorge, A. M.; Auerbach, V. H., and Mabry, C. C.:** Elevated serum insulin associated with leucine-induced hypoglycemia, 543 (O)

**Disney, F. A.: See Breese, B. B.,** jt. auth.

**Dobbs, J. M., and Baird, H. W.:** Use of corticotropin and corticosteroid in patients with minor motor seizures, 584 (O)

**Dockerty, M. B.: See Hayles, A. B.,** jt. auth.

**Dorfman, R. I.: See Camin, A. J.,** jt. auth.

**Drecher, A.; Barnett, H. L., and Troupkou, V.:** Water balance during water deprivation in infants on high and low protein diets, 703 (N)

**Driscoll, S. G.; Benirschke, K., and Curtis, G. W.:** Neonatal deaths among infants of diabetic mothers: postmortem findings in ninety-five infants, *818 (D)

**DuShane, J. W.: See Michener, W. M.,** jt. auth.

E

**Eichenwald, H. F.; Kotsevalov, O., and Fasso, L. A.:** "Cloud baby": example of bacterial-viral interaction, *161 (Ag)

**Kotsevalov, O., and Fasso, L. A.:** Staphylococcus aureus, Phage Type 80/81: differences in epidemiologic and clinical properties among various strains, 695 (N)

**Enders, J. F.: See Katz, S. L.,** jt. auth.

**Engle, M. A.; Holswade, G. R.; Campbell, W. G., and Goldberg, H. P.:** Ventricular septal defect with transposition of aorta and normal position of pulmonary artery masquerading as acyanotic ventricular septal defect, 585 (O)

**Stern, G.; Master, J.; Goldberg, H. P., and Smith, C. H.:** Late cardiac complications of severe refractory anemia, 728 (N)

**Erlandson, M. E.; Stern, G.; Walden, B.; Hilgartner, M.; Moghazeh, M.; Wehman, J., and Smith, C. H.:** Increased gastrointestinal absorption of iron in thalassemia, 586 (O)

**Etzwiler, D. D.:** Education of juvenile diabetic, 792 (N)

Hypothyroidism and nephrosis, 587 (O)

**Evans, J. R.; Rowe, R. D., and Keith, J. D.:** Spontaneous closure of ventricular septal defects, 516 (O)

F

**Falkner, F.:** Method for estimating body surface area in human child, 587 (O)

Problem of estimating effect of severe illness on physical growth in children, 587 (O)

**Farber, S.; D'Angio, G., and Evans, A.:** Treatment of children with disseminated Wilms' tumor by actinomycin D and roentgen therapy, 795 (N)

**Fasso, L. A.: See Eichenwald, H. F.,** jt. auth.

**Fee, B., and Weil, W. B.:** Body composition of diabetic offspring by direct analysis, 718 (N)

**Feldman, J. D.: See Fetterman, G. H.,** jt. auth.

**Feldman, R.; Luhby, A. L., and Sala, A. M.:** Purpura fulminans, thrombotic thrombocytopenic purpura, and Schwartzman phenomenon, 587 (O)

**Fellers, F. X.; Knapp, J., and McKenna, J.:** Ukari syndrome, transient tubular nephropathy, 763 (N)

**Ko, K. W., and Nicolaidou, M.:** Defect of tubular secretory function in de-Toni-Fanconi syndrome, 588 (O)

**Felton, H. M., and Pomerat, C. M.:** Cell injury and repair following staphylococcus toxin as seen with phase cinematography, 683 (N)

**Ferguson, A. D.:** See **Scott, R. B.,** jt. auth.

**Scott, R. B., and Bullock, W. H.:** Types of crises observed in sickle-cell anemia, 589 (O)

**Fetterman, G. H., and Feldman, J. D.:** Congenital anomalies of renal tubules in case of "infantile nephrosis": studies by microdissection and electron microscopy, *319 (S)

**Filler, J.:** Respiratory gas exchange in children: standard values, 589 (O)

**Finberg, L.; Cheung, C.-S., and Fleishman, E.:** Significance of concentrations of electrolytes in stool water during infantile diarrhea, *809 (D)

**Rush, B. F., Cheung, C.-S.:** Experimental studies of renal function during hypernatremia, 504 (O)

**Flatz, G.:** See **Zuelzer, W. W.,** jt. auth.

**Fleischaker, G. H.; Gesink, O. J., and McCrory, W. W.:** Effect of age on distribution of urea and electrolyte in kidneys of young rabbits, 557 (O)

**Fleisher, D. S.; DiGeorge, A. M.; Auerbach, V. H.; Huang, N. N., and Barness, L. A.:** Protein metabolism in cystic fibrosis of pancreas, 590 (O)

**Fleishman, E.:** See **Finberg, L.,** jt. auth.

**Fleming, T. S.:** Less painful "hypos," *286 (Ag)

**Florman, A. L.; Scoma, J. L.; Zepp, H., and Ainbender, E.:** Use of multiple staphylococcal antigens in hemagglutination test, 591 (O)

**Zepp, H.; Ainbender, E., and Scoma, J. L.:** Protection of mice by staphylococcal extract against staphylococcal infection, 551 (O)

**Friedman, S.:** See **Caddell, J. L.,** jt. auth.

## G

**Gallup, J.; Hursh, J. B., and Forbes, G. B.:** Total body potassium in man as determined in whole body scintillation counter: prediction of fat content, 701 (N)

**Gamble, J. L., Jr.:** Sodium, chloride, mitochondria, and pH, 592 (O)

**Gasul, B.; Agustsson, M.; Arcilla, R., and Steiger, F.:** Diagnosis of "iatrogenic" aortico-cardiac fistula following open heart surgery: report of three cases, 745 (N)

**Gellert, E.:** Children's ideas about etiology of bodily illness, 774 (N)

**George, R. M.; Cochran, C. P.; Davis, G. H.; Cabrera, H. A., and Wheeler, W. E.:** Elusive cause of epidemic nursery disease: Flavobacterium meningosepticum, 553 (O)

**Gerald, P. S.; Efron, M. L.; Pease, M., and Diamond, L. K.:** Identification of chemical defect in Lepore hemoglobin, 757 (N)

**Pearson, H. A., and McCurdy, P. R.:** New hemoglobinopathy of unusual genetic significance, 518 (O)

**Gibbs, G. E.; Hutchings, R. H., and Brodkey, J. S.:** Thiocyanate and radioactive iodide in sweat in cystic fibrosis, 731 (N)

**Ng, Y., and Hicks, M. R.:** Serum lipoprotein levels in cystic fibrosis, 592 (O)

**Gillespie, J. B., and Perucca, L. G.:** Congenital generalized indifference to pain (congenital analgia), *124 (Jl)

**Ginsburg, M. M.:** See **Silver, H. K.,** jt. auth.

**Githens, J. H.:** See **Knock, H. L.,** jt. auth.

**Tschetter, P. N.; Moscovici, G. P., and Hathaway, W. E.:** Storage of fetal liver for bone marrow transplantation, 521 (O)

**Gitlin, D.; Commerford, L., and Hughes, W. L.:** Inhibition of incorporation of iododeoxyuridine into DNA by cortisone, 480 (O)

**Schmid, K., and Earle, D. P.:** Peptide difference betwen normal human serum albumin and genetically determined human albumin variant, 593 (O)

**Goldman, H. I.; Karelitz, S.; Seifter, E.; Acs, H. E., and Schell, N. B.:** Lactic acid acidosis, 705 (N)

**Golinko, R. J.; Rudolph, A. M.; Auld, P. A. M., and Nelson, N. M.:** Valve for respiratory studies in neonatal period, 593 (O)

**Good, R. A.:** See **Warwick, W. J.,** jt. auth.

**Gordon, A.; Jones, J.; Meyer, B., and Fyler, D.:** Deep hypothermia for intracardiac surgery without mechanical oxygenation: clinical experience, 591 (O )

**Green, M. N.; Kulczycki, L. L., and Shwachman, H.:** Serum protein paper electrophoresis in patients with cystic fibrosis, *365 (S)

**Greenberg, R. E.; Studnitz, W. V., and Gardner, L. I.:** Functional neurogenic tumor: biochemicalobservations, 770 (N)

**Gribetz, D.: See Kohn, J. L.,** jt. auth.

**Griffiths, S. P.; Turino, G. M.; Blumenthal, S.; Wolff, J. A., and Fishman, A. P.:** Cardiac performance in Cooley's anemia, 756 (N)

**Grumbach, M. M.; Morishima, A., and Chu, E. H. Y.:** On sex chromatin and sex chromosomes in sexual anomalies in man: relation to origin of sex chromatin, 548 (O)

**Grunt, J. A.:** Relationship of Weltmann serum coagulation reaction to serum proteins, glycoproteins, and lipoproteins, 712 (N)

**Guignard, J. A.; Crigler, J. F., Jr., and Nathan, M. T.:** Clinical and metabolic observations on patient with osteogenesis imperfecta treated with 17a-ethyl-19-nortesterone, 594 (O)

**Gold, N. I., and Crigler, J. F., Jr.:** Abnormality of cortisol metabolism in patient with Cushing's disease, 547 (O)

## H

**Haake, M. W.: See O'Brien, D.,** jt. auth.

**Haggerty, R. J.: See Katz, S. L.,** jt. auth.

**Halac, E., Jr., and Ploski, W.:** Solubilization and some properties of glucuronyl transferase, 594 (O)

**Halbert, S. P.; di Sant'Agnese, P. A., and Kotek, S. R.:** Staphylococcal antibodies in cystic fibrosis of pancreas, 555 (O)

# SUBJECT INDEX TO VOLUME 100

The following Index is an alphabetical list of significant subjects presented in this volume, followed by page number and month of presentation. The asterisk (*) preceding the page number indicates an original article, case report, review article, special article, or scientific exhibit. Unclassified abstracts are indexed by subject, with the index entry followed by "[abst.]." Books reviewed are listed alphabetically by title under the heading "BOOKS." Society Transactions are listed under that heading, with individual papers indexed under appropriate headings. Page numbers in the Index refer to bold face (dark) numbers in the text.

## A

Abnormalities
- amphoteric procedure for study of congenital malformations [Brent & Franklin], 778 (N)
- maternal influenza (Asian) and congenital deformities [abst.], 446 (S)
- new syndrome of multiple congenital anomalies caused by extra autosome [Smith et al.], 492 (O)
- oculo-cerebro-renal syndrome of Lowe [Richards et al.], 707 (N)

ABSTRACTS FROM CURRENT LITERATURE, 135 (Jl), 293 (Ag), 440 (S), 951 (D)

ABSTRACTS FROM SOVIET LITERATURE, 960 (D)

Acetylsalicylic acid
- aspirin poisoning: epidemiologic study [Meyer], 796 (N)
- aspirin production—U.S.A.—Monsanto Chemical Company, 302 (Ag)
- and salicylamide suspension: antipyretic activity, in pediatrics (206 cases) [Borovsky], *23 (Jl)

Acid-base equilibrium: See also Acidosis
- acid-base relations between spinal fluid and arterial blood in cystic fibrosis [Tappan], 732 (N)
- acid-base vector in open heart surgery [Puyau et al.], 626 (O)

Acidosis
- hypertonicity of body fluids as cause of [Sotos et al.], 512 (O)
- lactic acid [Goldman et al.], 705 (N)
- respiratory, in transposition of great vessels [Sunico et al.], 531 (O)

Actinomycin D
- treatment of disseminated Wilms' tumor by roentgen therapy and [Farber et al.], 795 (N)

Adenoma
- pancreatic islet-cell, hypoglycemia in 2 infants with: effect of ACTH, cortisone, and surgical removal [Nathan et al.], 717 (N)

Adenovirus: See under Viruses

Adolescence
- hirsutism in adolescent girls: possible Stein-Leventhal syndrome [Hayles et al.], *31 (Jl)
- medical care for adolescents: program, Tulane University School of Medicine, Feb. 1961, 963 (D)

Adolescence—continued
- pulmonary function studies in normal preadolescents and adolescents [Lyons et al.], *196 (Ag)
- total body fat in adolescent boys [Heald & Hunt], 595 (O)

Adrenals
- enlargement, human fetal: evidence for corticotropin as cause of [Lanman], 607 (O)
- hyperplasia: congenital virilizing [Klevit], *415 (S)
- hyperplasia in Cushing's syndrome in 8-year-old girl [Silver & Ginsburg], *405 (S)
- hyperplasia: response to 11-hydroxylase inhibitor (Su-4885) [Cleveland & Migeon], 473 (O)

Adrenocortical hormones
- corticosteroid therapy of acute nonrheumatic myocarditis [Ainger et al.], 737 (N)
- for asthma: pseudotumor cerebri (benign intracranial hypertension) during treatment by [abst.], 147 (Jl)
- use of corticosteroid and corticotropin in patients with minor motor seizures [Dobbs & Baird], 584 (O)

Adrenogenital syndrome: See also Hermaphroditism
- congenital virilizing adrenal hyperplasia [Klevit], *415 (S)
- sodium loss and hypertension: coexistence in [Pronove et al.], 625 (O)

Albuminuria
- massive, following aortography [abst.], 448 (S)

Alcaligens faecalis
- pneumonitis in newborn: 2 fatal cases, one associated with meningitis [Sherman et al.], *212 (Ag)

Aldosterone, in urine: See under Urine

Aldrich's syndrome
- (thrombocytopenia, eczema, and recurrent infections): report of case [Cassimos et al.], *914 (D)

Allergy
- anaphylaxis and central nervous system activity [Heimlich et al.], 596 (O)
- fatal exfoliative dermatitis following injection of Triple Antigen and Salk vaccine [Iams], *282 (Ag)
- milk: See under Milk

Allergy—continued
neonatal unresponsiveness to passive transfer of delayed hypersensitivity [Warwick et al.], 699 (N)
severe reactions to insect stings [abst.], 143 (Jl)
tuberculin, evaluation: primary pulmonary tuberculosis in young children [Blatman et al.], 697 (N)
American Academy of Pediatrics
postgraduate courses, 454 (S)
American Association of Blood Banks
regional reference laboratories, 153 (Jl)
American Association of Poison Control Centers
3rd annual meeting, Chicago, Oct. 18, 1960, 152 (Jl)
American Board of Pediatrics, Inc.
specialists certified by, 152 (Jl), 452-453 (S), 647 (O)
American Board of Psychiatry and Neurology
specialists certified in child psychiatry, 800 (N)
American Heart Association
grants-in-aid, 453 (S)
AMERICAN JOURNAL OF DISEASES OF CHILDREN
case history of a name (editorial), 2 (Jl)
wheat versus chaff (editorial), 6 (Jl)
American Medical Association
Motion Picture Library: new catalog of medical-health films available, 801 (N)
American Pediatric Society
Award: See AWARDS
election of officers and active members, 453 (S)
transactions of 70th annual meeting: abstracts, 669-798 (N)
Aminoaciduria: See under Urine
Amyl nitrite
use, in diagnosis of systolic murmurs [abst.], 445 (S)
Analgia
congenital: congenital generalized indifference to pain [Gillespie & Perucca], *124 (Jl)
Anaphylaxis: See Allergy
Anemia
amino acid concentrations, unbound, in erythrocytes and plasma of children with [Nicolaidou & McMenamy], 618 (O)
aplastic: testosterone-induced remission in [Shahidi & Diamond], 753 (N)
erythroblastic: cardiac performance in Cooley's anemia [Griffiths et al.], 756 (N)
erythroblastic: clinical course of, before and after splenectomy [Wolff et al.], 755 (N)
Anemia—continued
erythroblastic: increased gastrointestinal absorption of iron in thalassemia [Erlandson et al.], 586 (O)
erythroblastic: relationship of epistaxis in patients with Cooley's anemia to their coagulation status [Stern et al.], 757 (N)
erythroblastic: thalessemia major in Negro children [Scott et al.], 754 (N)
hemolytic, idiopathic acquired, in two young infants [Laski et al.], 524 (O)
hypochromic: blood loss as contributing factor in etiology of iron-lack, of infancy [Rasch et al.], 627 (O)
hypochromic: blood volume and ferrokinetics in iron deficiency [Cortner et al.], 521 (O)
hypochromic: exudative enteropathy, hypoproteinemia, edema, and iron-deficiency [Ulstrom & Krivit], 509 (O)
hypochromic: iron therapy of infants with influence on hemoglobin iron [Sisson & Whalen], 632 (O)
hypoplastic, congenital: cortisone treated [Allen & Diamond], 748 (N)
hypoplastic, congenital: erythrocyte-stimulating factor in serum and urine in [Hammond & Keighley], 466 (O)
hypoplastic, congenital: urinary excretion of tryptophan metabolites by patients with [Smith et al.], 752 (N)
iron-deficiency, in older children [Thurman], 753 (N)
of early acute rheumatic fever [Mauer & Schinlever], 612 (O)
refractory, severe: late cardiac complications of [Engle et al.], 728 (N)
sickle-cell disease under one year of age [Porter et al.], 624 (O)
sickle-cell: management of child with [Scott & Ferguson], *85 (Jl)
sickle-cell: mechanism of effect of erythrocytes on in vitro growth of certain bacteria [Sever], 631 (O)
sickle-cell: types of crises observed in [Ferguson et al.], 589 (O)
Angiofibroma
of nasopharyngeal space [abst.], 140 (Jl)
ANNOUNCEMENTS, 151 (Jl), 281, 302 (Ag), 453 (S), 648 (O), 963 (D)
Antibiotics: See also specific antibiotics
prophylactic: aerobic bacterial flora of throat of children given [Priest et al.], *74 (Jl)
prophylactic, therapy in infants born after premature rupture of membranes [abst.], 138 (Jl)
toxicity, acute lethal: comparison in newborn and adult rats [Michael & Sutherland], 615 (O)
treatment of syphilis with, other than penicillin [abst.], 142 (Jl)

Antigens and antibodies
active production by newborn with Coxsackie B3 viremia and encephalitis [Steigman & Lipton], 537 (O)
cat-scratch disease: evaluation of intradermal skin test to [Warwick & Good], *241 (Ag)
detection of human viral antibodies: paper-radioactive virus test [Hodes et al.], 685 (N)
fluorescent antibody staining of nasopharyngeal smears: diagnosis of pertussis by [Whitaker et al.], 678 (N)
illnesses in children infected with adenovirus antigenically related to Types 9 and 15 [Cramblett et al.], 691 (N)
of Mycobacterium tuberculosis: separation by ion-exchange chromatography and gel diffusion [Kniker & Heiner], 604 (O)
precipitating antibodies in human tuberculosis [Heiner et al.], 698 (N)
response to Vi antigen administered subcutaneously and intravenously following splenectomy [Huang et al.], 699 (N)
streptococcal antibody titers in patients with chronic glomerulonephritis [Ayoub et al.], 766 (N)
response of hypogammaglobulinemic patients given poliomyelitis vaccine [Baron et al.], 566 (O)
Triple Antigen and Salk vaccine injection: fatal exfoliative dermatitis following [Iams], *282 (Ag)
Vi: antibody response of children with acute leukemia to [Huang et al.], 600 (O)
Antipyretics: See specific drugs, as Acetylsalicylic acid
Aorta
complete transposition of great vessels: new perspective in management based on review of 72 patients [Whittemore et al.], 724 (N)
transposition, corrected: clinical recognition [Reynolds et al.], 739 (N)
transposition of great arteries, complete: surgical approach to problem of [Bailey & Lemmon], 738 (N)
transposition of great vessels, incomplete (Taussig-Bing complex): physiological study [Cayler & Honick], 739 (N)
Aortic valve
stenosis: obstructive ventricular hypertrophy causing functional pulmonic and [Lurie et al.], 743 (N)
Aortitis
in children [abst.], 442 (S)
Arteries
coronary: See Coronary vessels
pulmonary arterial tree: congenital anomalies of [Willis & Fashena], 744 (N)
Arteries—continued
pulmonary: clinical recognition of corrected transposition [Reynolds et al.], 739 (N)
pulmonary: complete transposition of great vessels: new perspective in management [Whittemore et al.], 724 (N)
pulmonary: surgical approach to problem of complete transposition of great arteries [Bailey & Lemmon], 738 (N)
pulmonary: transposition of great vessels, incomplete (Taussig-Bing complex) [Cayler & Honick], 739 (N)
Aspirin: See Acetylsalicylic acid
Asthma
bronchial: convalescent home therapy in 355 children with [abst.], 150 (Jl)
bronchial: psychologic aspects of [Kripke], *935 (D)
hyperventilation experiments in children with, and neurovegetative dystonia [abst.], 450 (S)
prolonged steroid (prednisolone) therapy in childhood [Anderson], *341 (S)
treatment by adrenal steroids: pseudotumor cerebri (benign intracranial hypertension) during [abst.], 147 (Jl)
Atropine
response of eyes in mongolism [Priest], *869 (D)
sensitivity and serotonin in mongolism [O'Brien et al.], *873 (D)
AWARDS
John Howland Medal and Award of American Pediatric Society to Dr. Bronson Crothers, *657 (N)
Wyeth Pediatric Fellowships, 1960: recipients, 963 (D)

## B

Bacteria
aerobic bacterial flora of throat of children given prophylactic antibiotics [Priest et al.], *74 (Jl)
"cloud baby": example of bacterial-viral interaction [Eichenwald et al.], *161, (Ag)
BCG vaccination: See under Tuberculosis
Bile ducts
intrahepatic bile duct atresia [Harris & Andersen], 783 (N)
Bilirubin
blood: See Blood, bilirubin
dissociation of, from albumin and its clinical implications [abst.], 298 (Ag)
Biopsies: See under specific organ
Blastomycosis
pulmonary: clinical manifestations of [abst.], 295 (Ag)
Blood
amino acid concentrations, unbound, in erythrocytes and plasma of children with anemia [Nicolaidou & McMenamy], 618 (O)

Blood—continued
bilirubin concentrations; maternal, fetal, and placental, at time of delivery [Brown & McGaughey], 574 (O)
bilirubin: dissociation from albumin and its clinical implications [abst.], 298 (Ag)
bilirubin: effect of pH on protein binding of bilirubin [Odell & Cohen], 525 (O)
bilirubin, hyperbilirubinemia: difference in incidence of, among premature infants in 2 hospitals [Lucey et al.], 791 (N)
bilirubin, hyperbilirubinemia: lack of association between, and brain damage of prematurity [Shiller & Silverman], 496 (O)
bilirubin, hyperbilirubinemia, neonatal, of prematurity: sequelae at age one year [Heimer et al.], 495 (O)
bilirubin, hyperbilirubinemia, transient familial neonatal [Lucey et al.], 787 (N)
bilirubin, maternal, and fetal hemoglobin levels in relation to outcome of pregnancy [Sitarz et al.], 633 (O)
bilirubin metabolism in infant: chemotherapeutic agents in material disease producing alterations in [Thurman], 638 (O)
calcium and magnesium in muscular dystrophy [Smith et al.], 714 (N)
calcium, hypercalcemia, idiopathic: assays of vitamin D in serum [abst.], 148 (Jl)
cells: See Erythrocytes; Hemagglutination; Leukemia; Leukocytes
circulation: effect of changes in maternal blood flow on fetal lamb [Adams et al.], 561 (O)
circulatory changes following partial right heart bypass in patients with right-to-left shunts [Ordway et al.], 741 (N)
coagulation: relationship of Weltmann reaction to serum proteins, glycoproteins, and lipoproteins [Grunt], 712 (N)
coagulation status: relationship of epistaxis in patients with Cooley's anemia to their [Stern et al.], 757 (N)
galactose: erythrocytic galactose-1-phosphate in galactosemia [Kirkman], 537 (O)
galactose: genetic study of galactosemia in four generations by enzyme assay [Dawson et al.], *69 (Jl)
galactose: growth and development of galactosemic children [Koch & Donnell], 605 (O)
galactose: treatment of galactosemia [abst.], 446 (S)
globulin: See Gamma globulin
hematologic response to iron fortification of milk formula for infants [abst.], 148 (Jl)

Blood—continued
hemoglobin, hematocrit, and plasma biochemical values: evaluation of infants fed soybean and evaporated milk formulae [Kay et al.], *264 (Ag)
histamine content: in children with Henoch-Schoenlein disease [abst.], 149 (Jl)
insulin, elevated: leucine-induced hypoglycemia associated with [DiGeorge et al.], 543 (O)
lipid concentrations: relationship between diet and, during first 6 to 8 weeks of life [Sweeney et al.], 636 (O)
lipoprotein levels in cystic fibrosis [Gibbs et al.], 592 (O)
magnesium and calcium in muscular dystrophy [Smith et al.], 714 (N)
platelet-stimulating properties of human plasma: idiopathic thrombocytopenic purpura [Schulman], 747 (N)
potassium, hypokalemia, congenital, of renal origin due to inherited metabolic defect [Camacho & Blizzard], 713 (N)
sodium, hypernatremia: experimental studies of renal function during [Finberg et al.], 504 (O)
transaminase: diagnosis of neonatal jaundice by patterns of [Kove et al.], *47 (Jl)
vitamins: See Vitamins
Blood banks
American Association of Blood Banks: regional reference laboratories, 153 (Jl)
Blood groups: See Rh factors
Blood pressure
arterial, in infancy and childhood, measured by direct and indirect methods [Joos et al.], 526 (O)
hemodynamic observations during birth of full-term lamb [Harned et al.], 468 (O)
high: See Hypertension
measurements, auscultatory, in children, optimum size cuff for [Moss et al.], 617 (O)
umbilical arterial and venous pressures and oxygen saturation in fetus in utero [Rudolph et al.], 529 (O)
Blood proteins: See also Serum albumin
effect of pH on protein binding of bilirubin [Odell & Cohen], 525 (O)
hypoproteinemia: exudative enteropathy, edema, and iron-deficiency anemia and [Ulstrom & Krivit], 509 (O)
protein fractions in childhood leukemia [abst.], 956 (D)
relationship of Weltmann serum coagulation reaction to serum proteins, glycoproteins, and lipoproteins [Grunt], 712 (N)
serum protein paper electrophoresis in patients with cystic fibrosis [Green et al.], *365 (S)

Blood sugar
capillary, of infants born to normal and diabetic mothers: effect of glucagon on [Cornblath et al.], 580 (O)
hypoglycemia in 2 infants with pancreatic islet-cell adenoma [Nathan et al.], 717 (N)
hypoglycemia, leucine-induced: elevated serum insulin associated with [DiGeorge et al.], 543 (O)
hypoglycemia, post- : encephalopathy [abst.], 451 (S)
hypoglycemia, symptomatic: associated with toxemia of pregnancy [abst.], 299 (Ag)
in newborn: complex reflex regulation of [abst.], 149 (J1)

Blood transfusion
exchange: use in treatment of salicylate intoxication [Leikin & Emmanouilides], 608 (O)
proper extent of blood typing for: American Association of Blood Banks, 153 (Jl)

Body
composition of diabetic offspring by direct analysis [Fee & Weil], 718 (N)
fat: See Fat
fluids, hypertonicity of, as cause of acidosis [Sotos et al.], 512 (O)
surface area in human child: method for estimating [Falkner], 587 (O)
temperature in newborn infants: effect of varying ambient humidity and temperature on [Miller et al.], 729 (N)
water: effect in dogs of large water load upon volume and composition of extracellular fluid [Kerrigan et al.], 602 (O)
water, total, and its distribution [Hanna], 723 (N)
weight of newborn infant: De Pondere Infantum Recens Natorum [Cone], 794 (N)

Bone
composition and density in rat: effect of fasting, adrenalectomy, and hydrocortisone on [Lobeck & Steinkraus], 610 (O)
exchange of radioactive magnesium in: relation to age [Breibart et al.], 573 (O)
marrow, human autologous: laboratory and clinical studies on [McGovern et al.], 751 (N)
marrow, human: in vitro cultivation of cells from [Berg & Rosenthal], 568 (O)
marrow transplantation: storage of fetal liver for [Githens et al.], 521 (O)
ossification centers, hand-wrist; genetic versus maturational factors in rate of appearance [Robinow et al.], 628 (O)

Books
Advances in Pediatrics. Vol. 11 [Levine, ed.], 456 (S)
Annual Review of Medicine. Vol. II [Rytand & Creger, eds.], 803 (N)
Child Development: Physical and Psychologic Growth Through Adolescence. Ed. 4 [Breckenridge & Vincent], 966 (D)
Child in Hospital [Dimock], 967 (D)
Clinical Management of Behavior Disorders in Children. Ed. 2 [Bakwin], 456 (S)
Clown Family Speech Book [Pollock & Pollock], 806 (N)
Current Problems in Allergy and Immunology (Papers Dedicated to Bela Schick on occasion of his 80th Birthday) [Kaufman, ed.], 306 (Ag)
Diseases of Nervous System in Infancy, Childhood, and Adolescence. Ed. 4 [Ford], 306 (Ag)
Fundamentals of Modern Allergy [Prigal, ed.], 305 (Ag)
Genetic Field Theory of Ego Formation [Spitz], 455 (S)
Infant Foods and Feeding Practices [Meyer], 457 (S)
Intussusception in Infants and Children [Ravitch], 155 (Jl)
Laboratory Manual of Clinical Chemistry for Children's Hospital of Columbus [Meites], 155 (Jl)
Laboratory Manual of Pediatric Micro-Biochemical Techniques [O'Brien & Ibbott], 155 (Jl)
Medical Care of Adolescent [Gallagher], 805 (N)
Newer Virus Diseases: Clinical Differentiation of Acute Respiratory Infections [Adams], 304 (Ag)
Notes on Infant Feeding. Ed. 5 [Graham & Shanks], 804 (N)
Pediatric Anesthesiology. Ed. 2 [Leigh et al.], 966 (D)
Physician and the Law. Ed. 2 [Long], 803 (N)
Placenta and Fetal Membranes [Villee], 804 (N)
Viral Infections of Infancy and Childhood [Rose], 967 (D)

Brain
cortical lesions in cerebral palsy [abst.], 137 (Jl)
damage and hyperbilirubinemia of prematurity: lack of association between [Shiller & Silverman], 496 (O)
encephalopathy, posthypoglycemic [abst.], 451 (S)
energy metabolism in pyridoxine deficiency [McKhann & Tower], 540 (O)
pseudotumor cerebri (benign intracranial hypertension) during treatment of asthma by adrenal steroids [abst.], 147 (Jl)
reticular formation revisited [abst.], 137 (Jl)

Brain—continued
tissue: biochemistry, in presence of purulent meningitis [abst.], 150 (Jl)
water and electrolyte content of mammalian: effect of growth on [Segar et al.], 630 (O)
Bronchiolitis
acute, in infants: some observations on [Sell], *7 (Jl)
acute, with interstitial pneumonitis induced by experimental infection with H. influenzae [Sell & Shapiro], *16 (Jl)
cardiac catheterization in infants with [Ziegra et al.], 528 (O)
Bronchitis
chronic: bacteriology of respiratory tract secretions and sputum in [abst.], 447 (S)
chronic: its prevalence, nature, and pathogenesis [abst.], 294 (Ag)
Bronchoscopy
with positive pressure breathing during childhood [abst.], 301 (Ag)

## C

Calcium
transfer across intestinal wall in relation to action of vitamin D and cortisol [Harrison & Harrison], 704 (N)
Caloric feeding: See Infants, feeding
Carbon monoxide
poisoning, severe: use of hypothermia in [abst.], 952 (D)
Carcinogenesis
case of Imferon—convenience and conscience (editorial) [Zuelzer], 3 (Jl)
Cardiomegaly
vertebral erosion secondary to: case report of aberrant left coronary artery [Canby], *121 (Jl)
Cardiopulmonary reflexes: See Reflexes
Cat bite
infected: pasteurella multocida infections in man [abst.], 953 (D)
Cataract
congenital, and Conradi's disease in infant with survival beyond age of 2 years [Allansmith & Senz], *109 (Jl)
Catecholamines
metabolism in neural tumors [Voorhess & Gardner], 641 (O)
urinary: See under Urine
Cat-scratch disease
epidemic [Warwick & Good], 643 (O)
in Minnesota: evaluation of intradermal skin test to cat-scratch disease antigen [Warwick & Good], *241 (Ag)
in Minnesota: evidence for its epidemic occurrence [Warwick & Good], *228 (Ag)
in Minnesota: family epidemics [Warwick & Good], *236 (Ag)
Cells: See Cytology
Cerebral palsy: See Paralysis, cerebral
Cerebroretinal degeneration
juvenile (Spielmeyer-Vogt): blood and EEG findings in family of 10 members [Harlem], *918 (D)
Cerebrospinal fluid
protein, markedly elevated, in premature infants: prognostic significance [New & Bauer], 618 (O)
why does sugar disappear from C.S.F. in meningitis? (editorial) [Petersdorf], 307 (S)
Chart
seizure: simplified [Sayers], 129 (Jl)
Chelating agents
treatment of acute massive digitalis poisoning by administration of [abst.], 953 (D)
Chickenpox
atypical course of, in children treated with steroid hormones [abst.], 449 (S)
Children
children's ideas about etiology of bodily illness [Gellert], 774 (N)
school: See School children
Chloramphenicol
prophylactic, therapy in infants born after premature rupture of membranes [abst.], 138 (Jl)
toxicity of, in newborns versus adult mice [Kent et al.], *400 (S)
Chloroquine
poisoning, acute fatal, in young children [Cann & Verhulst], 797 (N)
Chlorothiazide
therapy of diabetes insipidus with [O'Doherty & Slater], 719 (N)
Chondrodystrophia
congenita punctata (Conradi's disease): review of literature and report of case [Allansmith & Senz], *109 (Jl)
Christmas disease
improving action of anti-hemophilic globulin and Christmas factor [abst.], 447 (S)
Chromosomes
human: analysis by use of cultures of peripheral leukocytes [Mellman et al.], 614 (O)
human chromosomal analysis: some applications to problems in medicine [Robinson et al.], 777 (N)
"Cloud baby": See under Newborn infants
Cold
effect of, upon intracellular concentration in rat muscle [Klein & Usher], 603 (O)
Colic
evening, in infants: double-blind trial of dicyclomine hydrochloride [abst.], 448 (S)
Colon
esophageal replacement in infants and children with use of segment of [abst.], 138 (Jl)
Colorado tick fever
[Silver et al.], 689 (N)

COMMUNICATIONS FROM NATIONAL CLEARINGHOUSE FOR POISON CONTROL CENTERS
fatality from acute dinitrophenol derivative poisoning [Cann & Verhulst], *947 (D)
new phenothiazine antidote [Robertson], 290, (Ag)
toxicity of household soap and detergent products and treatment of their ingestion [Cann & Verhulst], *287 (Ag)
Conradi's disease
chondrodystrophia congenita punctata: review of literature and report of case [Allansmith & Senz], *109 (Jl)
Convalescent home: See Homes, convalescent
Cooley's anemia: See Anemia, erythroblastic
Copper
absorption and excretion of, in mice [Citlin & Hughes], 716 (N)
Coronary vessels
aberrant left coronary artery: role in cardiomegaly with vertebral erosion [Canby], *121 (Jl)
CORRESPONDENCE
bilirubinemia vs. kernicterus [Thelander; Diamond], 949 (D)
half-life of cortisone in newborn infants [Bongiovanni; Cranny & Kelley], 292 [Ag]
medical librarians protest [Lentz], 950 (D)
O'Dwyer intubation tube [O'Neill], 133 (Jl)
sulfisoxazole in neonatal period after premature birth [Silverman], 133 (Jl)
thyrotoxicosis in mongoloid child [Clover], 950 (D)
volunteer organization for hospitalized children [Sears], 291 (Ag)
Corticosteroids: See Adrenocortical hormones
Corticotropin
evidence for, as cause of human fetal adrenal enlargement [Lanman], 607 (O)
and steroids in treatment of minor motor epilepsy [Pauli et al.], 621 (O)
use of, and corticosteroid in patients with minor motor seizures [Dobbs & Baird], 584 (O)
Cortisol: See Hydrocortisone
Cortisone
in treatment of congenital hypoplastic anemia [Allen & Diamond], 748 (N)
inhibition of incorporation of iododeoxyuridine into DNA by [Gitlin et al.], 480 (O)
Corynebacterium diphtheriae
rapid identification of toxigenic [Whitaker et al.], 550 (O)
Coxsackie virus: See under Viruses
Cranium
intracranial hypertension, benign: pseudotumors cerebri during treatment of asthma by adrenal steroids [abst.], 147 (Jl)
Cretinism
congenital: increase of non-tasters for phenylthiocarbamide in [Shepard et al.], 543 (O)
sporadic goitrous: dehalogenase deficiency in thyroid gland [abst.], 446 (S)
Croup
cyclic occurrence and etiologic association of parainfluenza 2 (CA) virus with [Kim et al.], 484 (O)
Cushing's syndrome
abnormality of cortisol metabolism in patient with [Guignard et al.], 547 (O)
association with renal ganglioneuroblastoma [Kogut & Donnell], 545 (O)
with hyperplasia of adrenal cortex in 8-year-old girl [Silver & Ginsburg], *405 (S)
Cyanocobalamin: See Vitamin $B_{12}$
Cystic disease of kidney: See under Kidneys
Cystic fibrosis: See Pancreatic cystic fibrosis
Cysts
mesenteric, enterogenous and multiple: complicated by pneumococcal abscess [Lary & Mikell], *412 (S)
Cytology
sampling of human somatic cells for biochemical and cytogenetic studies [Robinson & Puck], 628 (O)
Cytomegalic inclusion diseases: See under Viruses

## D

Deafness
in children due to ossicular defects [Sataloff], *248 (Ag)
Deformities: See Abnormalities
Dermatitis
exfoliative, fatal, following injection of Triple Antigen and Salk vaccine [Iams], *282 (Ag)
seborrheic: See Seborrhea
simplified formulary for topical management of pediatric dermatoses [Litt], 930 (D)
Detergents: See Soap and detergents
deToni-Fanconi syndrome
defect of tubular secretory function in [Fellers et al.], 588 (O)
Diabetes insipidus
therapy, with chlorothiazide [O'Doherty & Slater], 719 (N)
Diabetes mellitus
body composition of diabetic offspring by direct analysis [Fee & Weil], 718 (N)
education of juvenile diabetic [Etzwiler], 792 (N)

Diabetes mellitus—continued
effect of diet in management of, in children [Roldan & Klein], 629 (O)
effect of glucagon on capillary blood sugar of infants born to normal and diabetic mothers [Cornblath et al.], 580 (O)
nature of nephrotic syndrome occurring in young diabetics [McCrory et al.], 764 (N)
Dialysis
parabiosis, dialytic [abst.], 444 (S)
peritoneal lavage, intermittent (editorial) [abst.], 443 (S)
Diaphragm, duodenal: See Duodenum
Diarrhea
infantile: significance of concentrations of electrolytes in stool water during [Finberg et al.], *809 (D)
rapid identification of Escherichia coli in fecal specimens from infants with [Nelson et al.], 694 (N)
treatment with Streptomagma [abst.], 140 (Jl)
Diastematomyelia
embryological interpretation with report of case [Cohen & Sledge], *257 (Ag)
Diet
effect of diet in management of diabetes mellitus in children [Roldan & Klein], 629 (O)
infant's: See Infants, feeding
phenylketonuria—treating the disease and feeding the child [Umbarger], *908 (D)
protein: influence of prior feeding on survival of animals subjected to starvation and thirsting [Hill et al.], 793 (N)
protein-free: effect on experimental nephritis [Wasserman et al.], 644 (O)
Digitalis
poisoning, acute massive: treatment by administration of chelating agent [abst.], 953 (D)
Dinitrophenol
derivative: fatality from acute, poisoning [Cann & Verhulst], *947 (D)
Diphtheria
myocarditis, diphtheritic: ECG in [Ledbetter & Cannon], 608 (O)
rapid identification of toxigenic Corynebacterium diphtheriae [Whitaker et al.], 550 (O)
DIRECTORY OF PEDIATRIC SOCIETIES
to be published in AMERICAN PEDIATRIC DIRECTORY, 151 (Jl)
Disease
children's ideas about etiology of bodily illness [Gellert], 774 (N)
Distemper
measles, distemper and Rinderpest complex: preliminary vaccination studies [Adams et al.], 689 (N)
Diuretics
effect, on portal venous pressure [abst.], 445 (S)
DPT: See Triple Antigen
Ductus arteriosus
effect of hypoxia on closure of, in chick [Coughlin & Husson], 531 (O)
Ductus venosus
premature closure of [Blanc], 572 (O)
Duodenum
diaphragm, duodenal, unusual [Hardaway], *127 [Jl]
ulcer: See Ulcer
Dwarfism
heritable disorder of acid mucopolysaccharide metabolism resembling Hurler syndrome: "snorter" dwarf cattle [Lorincz], 488 (O)
Dyspepsia
problems [abst.], 449 (S)
Dystrophy, muscular: See Muscular dystrophy

## E

Ear
malformations, abnormal facies, and genitourinary tract anomalies [Blanc & Baens], 781 (N)
ossicular defects: deafness in children due to [Sataloff], *248 (Ag)
ECHO viruses: See under Viruses
Eczema
thrombocytopenia, recurrent infections, and: Aldrich's syndrome [Cassimos et al.], *914 (D)
Edathamil
treatment of acute massive digitalis poisoning by administration of chelating agent [abst.], 953 (D)
EDITORIALS
attenuated measles vaccine (Enders)—next big advance? [Kempe], 807 (D)
bonus for pediatric pack rats, 311 (S)
case history of a name: AMERICAN JOURNAL OF DISEASES OF CHILDREN, 2 (Jl)
case of Imferon—convenience and conscience [Zuelzer], 3 (Jl)
how much is too much? (biologic effects of radiation) [Robinson], 1 (Jl)
microcystic renal disease and its relation to "infantile nephrosis" [Oliver], 312 (S)
new concept of significance of hypertonus in cerebral palsy [Lamm], 157 (Ag)
of pediatric education, future of pediatrics, and abstracts, 649 (N)
preposterous cloud baby, 160 (Ag)
wheat versus chaff, 6 (Jl)
why does sugar disappear from C.S.F. in meningitis? [Petersdorf], 307 (S)
Education, pediatric: See under Pediatrics
Electrocardiography: See under Heart
Encephalitis
herpes simplex: fatal case [abst.], 297 (Ag)
Endocardial fibroelastosis: See under Heart

Endocarditis
bacterial, in infants and children: clinical entity [Wooley], 645 (O)
Enteritis
of infants due to Escherichia coli O 127: B8 [abst.], 140 (Jl)
vibrionic, in infants [Wheeler & Borchers], 677 (N)
Enuresis
at age six [Oppel et al.], 774 (N)
Enzymes
activity levels in cell cultures of human origin: comparative study [Nitowsky & Herz], 560 (O)
cellular, activities: influence of intracellular ion concentrations on, and survival of premature infants [Yamashita & Metcoff], 715 (N)
enzymatic mechanism for tyrosinuria [Kretchmer], 605 (O)
studies on lenses from persons with primaquine-sensitive erythrocytes [Zinkham], 525 (O)
Epilepsy
corticotropin and corticosteroid: use, in patients with minor motor seizures [Dobbs & Baird], 584 (O)
corticotropin and steroids in treatment of minor motor [Pauli et al.], 621 (O)
idiopathic, in early infancy: attacks causing undifferentiated type of mental deficiency [Dekaban], *181 (Ag)
in childhood: 1,054 cases [Holowach & Thurston], 598 (O)
N-3 (methylphenylethylhydantoin) in treatment of [Kramer et al.], 605 (O)
simplified seizure chart [Sayers], 129 (Jl)
"You—Your Child and Epilepsy"—new leaflet for parents: Federal Association for Epilepsy, 801
Epistaxis
relationship of, in patients with Cooley's anemia to their coagulation status [Stern et al.], 757 (N)
Erosion, vertebral: See Spine
Erythema infectiosum
failure to isolate virus from specimens of children with [Cramblett & Heeren], 580 (O)
Erythroblastosis, Fetal
morbus hemolyticus and morbus hemorrhagicus as emergency conditions of newborn [abst.], 140 (Jl)
neurological sequelae of, in 5-year follow-up study [Baker et al.], 565 (O)
premature induction and Rh-antibody titer (editorial) [abst.], 442 (S)
Erythrocytes
bovine in infectious mononucleosis: complement fixation test with lipoid receptor from [abst.], 956 (D)
fetal, in circulation of pregnant woman [Zipursky & Chown], 750 (N)
fragility, changes, in cases with infection [Thurman], 639 (O)
Erythrocytes—continued
galactose-1-phosphate uridyl transferase: relationship to glucose-6-phosphate dehydrogenase [Tannenbaum & Hsua], 637 (O)
Heinz bodies in normal and splenectomized rabbits [abst.], 297 (Ag)
Heinz body formation: studies on [Harley & Mauer], 522 (O)
$I^{131}$ labeled triiodothyronine, uptake of mothers and newborn infants [Spafford et al.], *844 (D)
of newborn: distribution of fetal hemoglobin in [Zipursky & Israels], 758 (N)
relationship to clinical course in thalassemia before and after splenectomy [Wolff et al.], 755 (N)
sickle-cell: mechanism of effect on in-vitro growth of certain bacteria [Sever], 631 (O)
-stimulating factor in serum and urine in congenital hypoplastic anemia [Hammond & Keighley], 466 (O)
Erythrocytosis
primary, of childhood [Knock & Githens], *189 (Ag)
Escherichia coli
O 127:B8: enteritis of infants due to [abst.], 140 (Jl)
rapid identification, in fecal specimens from infants with diarrhea [Nelson et al.], 694 (N)
Esophagus
replacement in infants and children with use of segment of colon [abst.], 138 (Jl)
17α-Ethyl-19-nortesterone
treatment of osteogenesis imperfecta: clinical and metabolis observations [Guignard et al.], 594 (O)
Exanthema
ECHO 9: outbreak, traced to children's party [Takos et al.], *360 (S)
Eyes
atropine response (pupillary dilatation) in mongolism [Priest], *869 (D)
atropine sensitivity (pupillary dilatation) and serotonin in mongolism [O'Brien et al], *873 (D)
findings in cystic fibrosis [Denning & Bruce], 583 (O)

## F

Face
abnormal facies, ear malformations, and genitourinary tract anomalies [Blanc & Baens], 781 (N)
Fallot's tetralogy: See under Heart
Family
epidemics of cat-scratch disease in Minnesota [Warwick & Good], *236 (Ag)
primary erythrocytosis of childhood: familial conditions [Knock & Githens], *189 (Ag)

Fasting
effect on bone composition and density in rat [Lobeck & Steinkraus], 610 (O)
ketosis in infants and children following [Kaye et al.], 601 (O)
Fat
body, total, in adolescent boys [Heald & Hunt], 595 (O)
content, prediction of: total body potassium in man as determined in whole body scintillation counter [Gallup et al.], 701 (N)
emulsion, intravenous: low incidence of acute toxic reactions in humans to [abst.], 459 (S)
metabolism in chronic, severe malnutrition: lipoprotein in children with kwashiorkor [abst.], 449 (S)
Feces
significance of concentrations of electrolytes in stool water during infantile diarrhea [Finberg et al.], *809 (D)
stool water content in neonatal period [Henley & Hodes], 597 (O)
Federal Association for Epilepsy
"You—Your Child and Epilepsy"—new leaflet for parents, 801 (N)
Fellowships: See under POSTGRADUATE EDUCATION
Fetus
adrenal enlargement, human: evidence for corticotropin as cause [Lanman], 607 (O)
arterial and venous pressures, umbilical, and oxygen saturation in fetus in utero [Rudolph et al.], 529 (O)
ECHO 9 infection: effect on [Peterson & Glicklich], 779 (N)
erythrocytes: See Erythrocytes
hemoglobin: See Hemoglobin
hemolytic disease of: See Erythroblastosis, Fetal
indirect effect of irradiation on embryonic development: I [Brent & McLaughlin], *94 (Jl); II [Brent], *103 (Jl)
liver: storage, for bone marrow transplantation [Githens et al.], 521 (O)
relationship of growth and differentiation in developing embryo [Winick], 519 (O)
thyroid: dynamics of chemical growth and function in Rhesus monkey [Pickering et al.], 507 (O)
Fever
antipyretic activity of acetylsalicylic acid and salicylamide suspension in pediatrics: 206 cases [Borovsky], *23 (Jl)
Colorado tick: See Colorado tick fever
Fibrinolysin
plasminogen-plasmin system of newborn infants: nature and persistence of deficiency [Quie & Wannamaker], *836 (D)
Fibrocystic disease of pancreas: See Pancreatic cystic fibrosis
Films
medical film review: Physical Diagnosis of Communicable Diseases [Audio-Visual Utilization Center, Wayne State University], 964 (D)
new catalog of medical-health films: A.M.A. Motion Picture Library, 801 (N)
Fistula
aortico-cardiac, "iatrogenic": diagnosis following open heart surgery [Gasul et al.], 745 (N)
5-Fluorouracil
use, in management of advanced malignancies in childhood [Krivit & Bentley], *217 (Ag)
Folic acid
and cyanocobalamin metabolism in kwashiorkor [Luhby et al.], 542 (O)
deficiency: excretion of formiminoglutamic acid as index of [abst.], 444 (S)
Formulary
simplified, for topical management of pediatric dermatoses [Litt], 930 (D)
Formulas: See Infants, feeding
Furunculosis
recurrent, due to Staphylococcus aureus in dairy cattle: association with human infection [abst.], 207 (Ag)

## G

Galactose
galactosemia: See Blood, galactose
metabolism: progesterone-like effects of menthol on [Topper et al.], 506 (O)
Gamma globulin
hypogammaglobulinemic patients given poliomyelitis vaccine: antibody response [Baron et al.], 566 (O)
Ganglioneuroblastoma
associated with increased excretion of catecholamines [Stickler et al.], 634 (O)
Gaucher's disease
cerebroside metabolism in: increased incorporation of $C^{14}$-labeled glucose and galactose [Stein & Gardner], 541 (O)
Genetics: See also Chromosomes
analysis of human chromosomes by use of cultures of peripheral leukocytes [Mellman et al.], 614 (O)
biochemical studies of mentally defective sibs [Wright et al.], 646 (O)
biologic effects of radiation: how much is too much? (editorial) [Robinson], 1 (Jl)
familial pheochromocytoma: genetic implications [Cone], 781 (N)
family study of congenital heart disease [Neill & Strang], 617 (O)
galactosemia: genetic study of four generations by enzyme assay [Dawson et al.], *69 (Jl)

Genetics—continued
glucuronic acid conjugation by patients with familial nonhemolytic jaundice and their relatives [abst.], 147 (Jl)
heredofamilial syndrome: macrocephaly, pseudopapilledema and multiple hemangiomata [Riley & Smith], 780 (N)
juvenile cerebroretinal degeneration (Spielmeyer-Vogt): blood and EEG findings in family of 10 members [Harlem], *918 (D)
mental defect, quadriplegia, and ichthyosis: report of 2 cases in one family and review of literature [Williams & Tang], *924 (D)
nephritis, hereditary: report of kindred [abst.], 952 (D)
new hemoglobinopathy of unusual genetic significance [Gerald et al.], 518 (O)
new syndrome of multiple congenital anomalies caused by extra autosome [Smith et al.], 492 (O)
twin births in family: unusual frequency of [abst.], 140 (Jl)
versus maturational factors in rate of appearance of hand-wrist ossification centers [Robinow et al.], 628 (O)
Genitourinary tract
anomalies: ear malformations, abnormal facies and [Blanc & Baens], 781 (N)
Globulin: See Gamma globulin
Glomerulonephritis: See also Nephrotic syndrome
chronic: streptococcal antibody titers in patients with [Ayoub et al.], 766 (N)
experimental, in parabiotic rats: immunologic mechanism of transmission of [Lang & McPherson], 761 (N)
Glucuronic acid
conjugation by patients with familial nonhemolytic jaundice and their relatives ([abst.], 147 (Jl)
Glycogen
liver, disease: biochemical paradox [Sokal et al.], 633 (O)
Goiter
of childhood [Leboeuf et al.], 718 (N)
sporadic goitrous cretinism: dehalogenase deficiency in thyroid gland [abst.], 446 (S)
Grafts: See Skin, transplantation; Transplantation
Granuloma
annulare: rarely recognized condition in childhood [abst.], 451 (S)
Griseofulvin
treatment of tinea capitis in children with [Bensel], 131 (Jl)
Growth and development
effect of growth on water and electrolyte content of mammalian brain [Segar et al.], 630 (O)
effect of severe illness on physical growth in children: problem of estimating [Falkner], 587 (O)
Growth and development—continued
"idiopathic failure to thrive," feeding problem or intrauterine syndrome? [Winick], 782 (N)
and nutrition of infants during their first year of life [Rueda-Williamson & Rose], 722 (N)
of galactosemic children [Koch & Donnell], 605 (O)
rate of appearance of hand-wrist ossification centers: genetic versus maturational factors [Robinow et al.], 628 (O)
weight, length: evaluation of infants fed soybean and evaporated milk formulae [Kay et al.], *264 (Ag)

## H

Hearing
pattern of, in children following acute otitis media [Olmsted], 772 (N)
Heart
activity, patterns of, in infancy [Lipton et al.], 609 (O)
cardiac performance in Cooley's anemia [Griffiths et al.], 756 (N)
cardiomegaly from aberrent left coronary artery: vertebral erosion secondary to [Canby], *121 (Jl)
cardiopulmonary reflexes and cardiac rate in early infancy [Lipton & Richmond], 609 (O)
carditis, absence of: diagnosis of rheumatic fever in [Lim & Mitty], 700 (N)
catheterization in infants with bronchiolitis [Ziegra et al.], 528 (O)
circulatory changes following partial right heart bypass in patients with right-to-left shunts [Ordway et al.], 741 (N)
complications, late cardiac, of severe refractory anemia [Engle et al.], 728 (N)
defect, ventricular septal, with transposition of aorta and normal position of pulmonary artery [Engle et al.], 585 (O)
defects, ventricular septal: spontaneous closure of [Evans et al.], 516 (O)
disease: See also Endocarditis; Myocarditis: Rheumatic heart disease
disease, congenital: family study of [Neill & Strang], 617 (O)
disease, congenital: lung diffusing capacity, pulmonary capillary blood volume, and pulmonary membrane resistance in [Bucci et al.], 742 (N)
disease, congenital: lung volumes and mechanics of respiration in [Cook et al.], 579 (O)
electrocardiogram in respiratory distress syndrome [Keith et al.], 730 (N)
electrocardiography in diphtheritic myocarditis [Ledbetter & Cannon], 608 (O)

Heart—continued
fibroelastosis, subendocardial: hemodynamic studies in [Ainger et al.], 562 (O)
hypertrophy, obstructive ventricular, causing functional aortic and pulmonic stenosis [Lurie et al.], 743 (N)
lesions, congenital: some unusual manifestations [Ainger et al.], 562 (O)
murmurs, systolic: diagnosis with use of amyl nitrite [abst.], 445 (S)
newborn: effect of crying, asphyxia, and blood volume differences on transverse diameter of [James & Burnard], 746 (N)
obstruction of pulmonary venous return in infancy [Neill], 741 (N)
shunts, intra- and extracardiac: localization with intravascular polarography [Kaplan et al.], 600 (O)
shunts, intracardiac, in infants: detection by use of intravascular potentiometric electrodes [Bargeron et al.], 502 (O)
surgery: bacterial endocarditis in infants and children in era of antibiotics and [Wooley], 645 (O)
surgery, intracardiac: deep hypothermia, without mechanical oxygenation [Gordon et al.]) 591 (O)
surgery, open: acid-base vector in [Puyau et al.], 626 (O)
surgery, open: diagnosis of "iatrogenic" aortico-cardiac fistula following [Gasul et al.], 745 (N)
tetralogy of Fallot: relationship of hemogram to cerebrovascular accidents in [Martelle & Linde], 611 (O)
transposition, corected: clinical recognition [Reynolds et al.], 739 (N)
transposition of great arteries, complete: surgical approach to problem of [Bailey & Lemmon], 738 (N)
transposition of great vessels, complete: new perspective in management [Whittemore et al.], 724 (N)
transposition of great vessels, incomplete (Taussig-Bing complex): physiological study [Cayler & Honick], 739 (N)
transposition of great vessels: respiratory acidosis in [Sunico et al.], 531 (O)
Heinz bodies: See Erythrocytes
Hemagglutination
test: use of multiple staphylococcal antigens in [Florman et al.], 591 (O)
Hemangioma
cavernous; natural history of [abst.], 447 (S)
intradural spinal, revealed by spinal bruit [abst.], 448 (S)
multiple hemangiomata, macrocephaly and pseudopapilledema: heredofamilial syndrome [Riley & Smith], 780 (N)
Hemoglobin
fetal: distribution in erythrocytes of newborn [Zipursky & Israels], 758 (N)
hemoglobinopathies: alterations in immune responses in association with [Thurman], 754 (N)
Lepore: identification of chemical defect in [Gerald et al.], 757 (N)
new hemoglobinopathy of unusual genetic significance [Gerald et al.], 51[illegible] (O)
Hemolysis
urinary leucine-amino peptidase as index of [Dajani et al.], 523 (O)
Hemophilia
vascular: inherited hemorrhagic disorder with antihemophilic globulin deficiency and prolonged bleeding time [abst.], 142 (Jl)
Hemophilus
influenzae: bacteriologic and serologic tests for, in infants with acute bronchiolitis [Sell], *7 (Jl)
influenzae: interstitial pneumonitis induced by experimental infection with [Sell & Shapiro], *16 (Jl)
Hemorrhage
morbus hemolyticus and morbus hemorrhagicus as emergency conditions of newborn [abst.], 140 (Jl)
Henoch-Schoenlein disease
histamine content of blood in children with [abst.], 149 (Jl)
Hermaphroditism: See also Adrenogenital syndrome
male pseudohermaphroditism and other abnormalities of sex differentiation: [Alexander & Ferguson-Smith], 563 (O)
pseudohermaphrodism, male: case, with observations on pathogenesis [abst.], 143 (Jl)
Herpes
simplex encephalitis: fatal case [abst.], 297 (Ag)
Hippurate
synthesis in newborn rat [Brandt], 538 (O)
Hirsutism
in adolescent girls: possible Stein-Leventhal syndrome [Hayles et al.], *31 (Jl)
Histamine, in blood: See Blood, histamine
Homes, convalescent
therapy of bronchial asthma in 355 children in [abst.], 150 (Jl)
Hormones: See also Adrenocortical hormones; Steroids
therapy in nephrotic syndrome of childhood: comparison of results of current therapy with those achieved previously [Kohn & Gribetz], *373 (S)

Humidifying equipment
possible role, in spread of infections from newborn nursery [abst.], 148 (Jl)
Humidity
effect of varying ambient, and temperature on body temperature and $O_2$ consumption in newborn infants [Miller et al.], 729 (N)
Hurler syndrome
heritable disorder of acid mucopolysaccharide metabolism resembling: "snorter" dwarf cattle [Lorincz], 488 (O)
Hyaline membrane disease
deficiency of plasminogen activator in lungs with [Lieberman], 556 (O)
Hydrocephalus
thromboembolism complicating ventriculovenous shunt procedures for [Talner et al.], 740 (N)
Hydrocortisone
calcium transfer across intestinal wall in relation to action of vitamin D and cortisol [Harrison & Harrison], 704 (N)
metabolism, abnormality, in patient with Cushing's syndrome [Guignard et al.], 547 (O)
Hypercalcemia: See Blood, calcium
Hyperostosis
infantile cortical, familial [Holman & Gerrard], 781 (N)
Hyperoxaluria: See Urine, oxalates
Hyperphosphaturia: See under Urine
Hypertension
fatal, in child with elevated urinary aldosterone values and renal arterial malformation [Cherry & Yuceoglu], 578 (O)
pulmonary, experimental: maturation of small pulmonary arteries in puppies [Phillips et al.], 529 (O)
Hypertension, portal
effect of diuretics on portal venous pressure [abst.], 445 (S)
Hypnosis
evaluation of treatment of warts by [abst.], 442 (S)
Hypogammaglobulinemia: See Gamma globulin
Hypoglycemia: See Blood sugar, hypoglycemia
Hypothermia
deep, for intracardiac surgery without mechanical oxygenation: clinical experience [Gordon et al.], 591 (O)
its use in severe carbon monoxide poisoning [abst.], 952 (D)
Hypothyroidism: See under Thyroid
Hypoxia
effect on closure of ductus arteriosus in chick [Coughlin & Husson], 531 (O)
prolonged: effect on cerebrospinal fluid and plasma glutamic oxalacetic transaminase and lactic dehydrogenase activity [Lending], 607 (O)

## I

Ichthyosis
mental defect, quadriplegia, and: 2 cases in one family [Williams & Tang], *924 (D)
Illness: See Disease
Imferon: See Iron-dextran complex
Immunity: See also Antigens and antibodies; Vaccination; Vaccines
alterations in immune responses in association with hemoglobinopathies [Thurman], 754 (N)
immunization of newborn infants with live attenuated poliovirus vaccine [Krugman et al.], 684 (N)
immunologic mechanism of transmission of experimental glomerulonephritis in parabiotic rats [Lang & McPherson], 761 (N)
prevention of type specific, to streptococcal infections due to therapeutic use of penicillin [Breese et al.], *353 (S)
prevention of type-specific, to streptococcal infections due to therapeutic use of penicillin [Breese et al.], 692 (N)
Infantile cortical hyperostosis: See Hyperostosis
Infantile nephrosis: See Nephrosis, infantile
Infants
bronchiolitis, acute, in: interstitial pneumonitis induced by experimental infection with H. influenzae from [Sell & Shapiro], *16 (Jl)
bronchiolitis, acute, in: some observations on [Sell], *7 (Jl)
bronchiolitis: cardiac catheterization in [Ziegra et al.], 528 (O)
cerebral palsyed: muscle tone and posture in [abst.], 136 (Jl)
colic, evening: double-blind trial of dicyclomine hydrochloride [abst.], 448 (S)
composition, baby: effects of milk composition on [Mosovich et al.], 791 (N)
Conradi's disease and congenital cataracts in patient with survival beyond age of 2 years [Allansmith & Senz], *109 (Jl)
cysts, mesenteric, enterogenous and multiple [Lary & Mikell], *412 (S)
dermatitis, exfoliative, fatal; following injection of Triple Antigen and Salk vaccine [Iams], *282 (Ag)
diabetes: See Diabetes mellitus
diarrhea, infantile: significance of concentrations of electrolytes in stool

Infants—continued
water during [Finberg et al.], *809 (D)
diarrhea: rapid identification of Escherichia coli in fecal specimens [Nelson et al.], 694 (N)
duodenal ulcer in childhood: 92 cases with follow-up [Michener et al.], 790 (N); *814 (D)
enteritis of, due to Escherichia coli O 127:B8 [abst.], 140 (Jl)
epilepsy, idiopathic, in early infancy: attacks causing indifferentiated type of mental deficiency [Dekaban], *181 (Ag)
experiences: effects, on development of psychological disorders in childhood [Richmond et al.], 775 (N)
feeding, caloric, increased: results with trial, in premature infants [Steigman et al.], 794 (N)
feeding, cold formulas: study of premature infants [Davies & Hasselmeyer], 795 (N)
feeding: comparative hematologic response to iron fortification of milk formula [abst.], 148 (Jl)
feeding, early and delayed, of premature infants: clinical evaluation [Keitel & Ting], 794 (N)
feeding: evaluation of infants fed soybean and evaporated milk formulae from birth to 3 months [Kay et al.], *264 (Ag)
feeding, graded amounts of protein in formulas: effect on plasma levels of albumin and gamma globulin in prematures [Pincus et al.], 623 (O)
feeding, high and low protein diets: water balance during water deprivation in [Drecher et al.], 703 (N)
feeding, human and cow's milk, comparison: studies on lipids [Woodruff & Coniglio], 644 (O)
feeding: lactic acid acidosis [Goldman et al.], 705 (N)
feeding: phenylketonuria—treating the disease and feeding the child [Umbarger], *908 (D)
feeding: relationship between diet and serum lipid concentrations [Sweeney et al.] 636 (O)
feeding: voluntary intake of premature infants: evidence of intact appetite center [Keitel et al.], 602 (O)
galactosemic: genetic study of four generations by enzyme assay [Dawson et al.], *69 (Jl)
growth and development: See Growth and development
"idiopathic failure to thrive," feeding problem or intrauterine syndrome? [Winick], 782 (N)
metabolic disorders among young: detection of [Berry et al.], 570 (O)

Infants—continued
mortality: statistics [abst.], 188 (Ag)
nervous system, autonomic, regulation: patterning of [Lipton et al.], 609 (O)
neurology, present state: relation to cerebral palsied child [abst.], 136 (Jl)
newborn: See Newborn infants
poliomyelitis, Salk vaccine: unpredictability of response to injections [Cramblett & Fomon], 691 (N)
premature: See Premature infants
pulmonary venous obstruction in infants with anomalous pulmonary venous drainage [Hauck et al.], 744 (N)
seborrheic dermatitis of scalp: pediatric management [Seldowitz], *875 (D)
sepsis and jaundice in infancy [Bernstein & Brown], 569 (O)
thrush, oral, treated with nystatin [abst.], 444 (S)
tracheotomy in: prevention of pulmonary complications by modification of cannula [abst.], 143 (Jl)
tuberculosis hospital: protection of infants with use of isoniazid [abst.], 446 (S)
"tyrosinosis" in [Berry & Sutherland], 571 (O)
vibrionic enteritis in [Wheeler & Borchers], 677 (N)
water balance during water deprivation in, on high and low protein diets [Drecher et al.], 703 (N)
Infection: See also specific organ or region; and specific infective agent as Staphylococcus
changes in red cell fragility with [Thurman], 639 (O)
"cloud baby": example of bacterial-viral interaction [Eichenwald et al.], *161 (Ag)
Infectious mononucleosis
complement fixation test with lipoid receptor from bovine erythrocytes in [abst.], 956 (D)
Inflammation
anti-inflammatory effect of buccal Streptokinase-Streptodornase [abst.], 135 (Jl)
Influenza
A and B virus: incidence, detection, and clinical features of, in children during periods of prevalence [Vargosko et al.], 536 (O)
Asian, in 1957: community and family study of [Hennessy et al.], 597 (O)
Asian: maternal influenza and congenital deformities [abst.], 446 (S)
Asian: sweating sickness [Davison], 934 (D)
parainfluenza 2 (CA) virus: cyclic occurrence and etiologic association with croup [Kim et al.], 484 (O)
Injections
less painful "hypos" [Fleming], 286 (Ag)

Insects
stings: severe allergic reactions to [abst.], 143 (Jl)
Institutions
infection with tuberculosis in: liability following damages [abst.], 300 (Ag)
Insulin
blood: See under Blood
intracellular role of, in protein synthesis in muscle: new theory of insulin action [Bessman & Toyoda], 471 (O)
Intelligence
patients': pediatricians' appraisal of [Korsch et al.], 478 (O)
phenylketonuria with normal [Allen et al.], 563 (O)
Intestines
calcium transfer across intestinal wall in relation to action of vitamins D and cortisol [Harrison & Harrison], 704 (N)
dysfunction: familial hypoparathyroidism with pernicious anemia and adrenal insufficiency related to [Cochrane et al.], 544 (O)
newer physiology of absorption from [abst.], 296 (Ag)
obstruction: perforation of Meckel's diverticulum with peritonitis and, in newborn with survival [Abramson], *277 (Ag)
Intracranial pressure
increased, in children and adolescents: roentgenologic signs of [abst.], 956 (D)
Iodides
therapy in chronic respiratory involvement of cystic fibrosis: hypothyroidism as complication of [Ruben et al.], 721 (N)
Iodine, radioactive
$I^{131}$ labeled triiodothyronine erythrocyte uptake of mothers and newborn infants [Spafford et al.], *844 (D)
Ions
sodium, chloride, mitochondria, and pH [Gamble], 592 (O)
Iron
deficiency anemia: See Anemia, hypochromic
fortification of milk formula for infants: comparative hematologic response to [abst.], 148 (Jl)
increased gastrointestinal absorption of, in thalassemia [Erlandson et al.], 586 (O)
therapy of infants: influence on hemoglobin iron and other values [Sisson & Whalen], 632 (O)
Iron-dextran complex
case of Imferon—convenience and conscience (editorial) [Zuelzer], 3 (Jl)
Isoniazid
chemotherapy, importance of individualization. in childhood tuberculosis [Levy et al.], 695 (N)
Isoniazid—continued
prophylactic: protection of infants in tuberculosis hospital [abst.], 446 (S)

## J

Jaundice
in newborn: origin of [Waters], 785 (N)
neonatal: diagnosis, by patterns of serum transaminase [Kove et al.], *47 (Jl)
neonatal, in prematures: treatment with polyvinylpyrrolidone infusion [abst.], 956 (D)
nonhemolytic, familial: glucuronic acid conjugation by patients with, and their relatives [abst.], 147 (Jl)
sepsis and, in infancy [Bernstein & Brown], 569 (O)
John Howland Medal and Award: See Awards
Joseph Wall Memorial Lecture
future of pediatricians as medical specialists in United States [May], *661 (N)

## K

Kernicterus
dissociation of bilirubin from albumin and its clinical implications [abst.], 298 (Ag)
Ketosis
in infants and children following fasting [Kaye et al.], 601 (O)
Kidneys
biopsy: nephrotic syndrome—5 years' experience with steroid therapy and [Piel et al.], 766 (N)
biopsy, percutaneous: clinical application [Litman et al.], 767 (N)
congenital hypokalemia of renal origin due to inherited metabolic defect [Camacho & Blizzard], 713 (N)
defect of tubular secretory function in deToni-Fanconi syndrome [Fellers et al.], 588 (O)
disease, hereditary, with leading symptom of hematuria [abst.], 956 (D)
enzymatic staining reactions in, of potassium-depleted rats [abst.], 293 (Ag)
function, during hypernatremia: experimental studies [Finberg et al.], 504 (O)
lead nephropathy: light and electron microscopy of [Cohen et al.], 599 (O)
lesions in mice after exposure to Group A, Type 12 streptococci [Hinkle et al.], 560 (O)
nephrectomy: effects on body composition in rat [Bergstrom et al.), 568 (O)
nephrosis, aminonucleoside: mechanism, in rats [Boggs & Stern], 559 (O)
nephrosis: hypothyroidism and [Etzwiler], 587 (O)

Kidneys—continued
nephrosis, idiopathic: relationship of renal morphology to response to treatment and prognosis in [Worthen et al.], 764 (N)
nephrosis, infantile: relationship with microcystic renal disease (editorial) [Oliver], 312 (S)
nephrosis, infantile: with congenital anomalies of renal tubules [Fetterman & Feldman], *319 (S)
nephrosis: morphologic studies of mechanism of proteinuria in [Vernier et al.], 476 (O)
nephrosis, steroid-induced remission in: sequence of changes in serum albumin concentration [Oliver], 620 (O)
nephrotic syndrome: See Nephrotic syndrome
plasma flow, true effective, and filtration fraction in young infants [Calcagno et al.], 576 (O)
solute content, renal, in young rabbits [Yaffe & Anders], 558 (O)
stones in children: metabolic causes of [abst.], 139 (Jl)
tumors, ganglioneuroblastoma: in association with Cushing's syndrome [Kogut & Donnell], 545 (O)
tumors, Wilms', disseminated: treatment by actinomycin D and roentgen therapy [Farber et al.], 795 (N)
tumors, Wilms' — (nephroblastoma) [abst.], 139 (Jl)
Ukari syndrome: transient tubular nephropathy [Fellers et al.], 763 (N)
urea and electrolyte, distribution, in young rabbits: effect of age on [Fleischaker et al.], 557 (O)

Klinefelter's syndrome
in infant with hypogenitalism and mongolism [Lanman & Hirschhorn], 546 (O)

Kuru
(editorial) [abst.], 445 (S)

Kwashiorkor
folic acid and cyanocobalamin metabolism in [Luhby et al.], 542 (O)
lipoprotein in children with: fat metabolism in chronic, severe malnutrition [abst.], 449 (S)

L

Labor
induction, premature, and Rh-antibody titer (editorial) [abst.], 442 (S)

Lactic acid acidosis: See Acidosis

Lead
nephropathy: light and electron microscopy of [Cohen et al.], 559 (O)

Learning
pediatric management of school learning problems of underachievement [abst.], 954 (D)

Lens (crystalline)
enzyme studies on lenses from persons with primaquine-sensitive erythrocytes [Zinkham], 525 (O)

Leptospirosis
meningitis [abst.], 135 (Jl)

Leukemia
acute: antibody response of children with, to Vi antigen [Huang et al.], 600 (O)
acute childhood: ten-year study [Zuelzer & Flatz], *886 (D)
childhood: protein fractions in [abst.], 956 (D)
viral, mouse: thymus in [Levinthal et al.], 557 (O)

Leukocytes
peripheral, cultures of: analysis of human chromosomes by use of [Mellman et al.], 614 (O)

Lipids
in infancy: comparison of human and cow's milk feeding [Woodruff & Coniglio], 644 (O)

Lipodystrophy
elevated serum insulin-like activity in patients with [Schafer et al.], 630 (O)

Liver
biopsy, Menghini needle, of [Hong & Schubert], *42 (Jl)
-cell, newly isolated: growth and metabolic characteristics of cell line in culture [Nitowsky et al.], 620 (O)
cirrhotic and normal: injection-corrosion studies of [abst.], 293 (Ag)
fetal: storage, for bone marrow transplantation [Githens et al.], 521 (O)
glycogen, abnormal, deposit in: with phosphorylase deficiency in glycogenosis [Wagner & Sparaco], 789 (N)
glycogen disease: biochemical paradox [Sokal et al.], 633 (O)

Lowe's syndrome: See Oculo-cerebro-renal syndrome

Lungs: See also under Respiration
blastomycosis: clinical manifestations of [abst.], 295 (Ag)
and chest wall compliance in apneic, paralyzed infants [Richards & Bachman], 627 (O)
diffusing capacity, capillary blood volume, and membrane resistance in congenital heart disease [Bucci et al.], 742 (N)
hyaline membrane disease: deficiency of plasminogen-activator activity in [Lieberman], 556 (O)
regurgitation, pulmonary, congenital: 6 autopsied cases [Vlad et al.], 640 (O)
resistance, total pulmonary, in normal infants and children [Lucas et al.], 481 (O)
secretions, composition, from patients with and without cystic fibrosis [Potter et al.], 493 (O)

Lungs—continued
volumes and mechanics of respiration in congenital heart disease [Cook et al.], 579 (O)
Lupus
vulgaris following BCG vaccination [abst.], 300 (Ag)
Lymphosarcoma
bovine [Nichols et al.], 618 (O)

M

Macrocephaly
pseudopapilledema, multiple hemangiomata and: heredofamilial syndrome [Riley & Smith], 780 (N)
Magnesium
radioactive, exchange, in bone: relation to age [Breibart et al.], 573 (O)
Malnutrition: See Nutrition, deficiencies
Maple syrup urine disease: See under Urine
Measles
distemper and Rinderpest complex: preliminary vaccination studies [Adams et al.], 689 (N)
vaccine, attenuated (Enders)—next big advance? (editorial) [Kempe], 807 (D)
vaccines, killed- and live-virus: evaluation of [Kempe & Maisel], 680 (N)
virus vaccine, attenuated: results of vaccination [Katz et al.], *942 (D)
virus vaccine, living attenuated: studies with [Kress et al.], 536 (O)
Meckel's diverticulum
perforation of: peritonitis, and intestinal obstruction in newborn with survival [Abramson], *277 (Ag)
Medals: See AWARDS
Meningitis
Alcaligenes faecalis pneumonitis in newborn associated with [Sherman et al.], *212 (Ag)
Flavobacterium meningosepticum: elusive cause of epidemic nursery disease [George et al.], 553 (O)
leptospiral [abst.], 135 (Jl)
pasteurella multocida infections in man [abst.], 953 (D)
purulent: biochemistry of brain tissue in presence of [abst.], 150 (Jl)
tuberculous: short-term antimicrobial therapy of [Kendig & Burch], 696 (N)
why does sugar disappear from C.S.F.? (editorial) [Petersdorf], 307 (S)
Mental deficiency
biochemical studies in mentally defective sibs [Wright et al.], 646 (O)
"Home Care of Mentally Retarded Child"—free booklet for parents: The Training School, Vineland, N.J., 799 (N)
idiopathic epilepsy in early infancy: frequent daily attacks causing undifferentiated type of [Dekaban], *181 (Ag)
Mental deficiency—continued
mental defect, quadriplegia, and ichthyosis: 2 cases in one family [Williams & Tang], *924 (D)
mental retardation in association with progressive muscular dystrophy [Allen & Rodgin], *208 (Ag)
Mental retardation: See under Mental deficiency
Menthol
progesterone-like effects of, on galactose metabolism [Topper et al.], 506 (O)
Mesentery
cysts, enterogenous and multiple: complicated by pneumococcal abscess of one of cysts [Lary & Mikell], *412 (S)
Metabolism
metabolic changes in respiratory distress syndrome of prematurity: management of [Usher], 485 (O)
metabolic disorders, detection of, among young infants: case-finding program [Berry et al.], 570 (O)
Methemoglobinuria: See Urine, methemoglobin
Methylphenylethylhydantoin
N-3 in treatment of epilepsy [Kramer et al.], 605 (O)
Microcystic renal disease: See under Kidneys
Midwest Society for Pediatric Research annual meeting, Milwaukee, Nov. 2-3, 1960, 302 (Ag)
Milk
composition: effects on baby composition [Mosovich et al.], 791 (N)
cow's: chronic respiratory disease associated with multiple circulating precipitins to [Heiner & Sears], 500 (O)
cow's: immunochemical analysis of, and protein fractions from milk by serum-agar precipitation [Crawford & Grogan], 581 (O)
evaporated, and soybean formulae: evaluation of infants, from birth to 3 months [Kay et al.], *264 (Ag)
formula for infants: comparative hematologic response to iron fortification of [abst.], 148 (Jl)
human and cow's milk feeding: comparison, in studies on lipids in infancy [Woodruff & Coniglio], 644 (O)
lactic acid acidosis [Goldman et al.], 705 (N)
Mitochondria
sodium, chloride, mitochondria, and pH [Gamble], 592 (O)
Mongolism
abnormalities of tryptophan metabolism in children with [O'Brien et al.], 540 (O)
atropine response of eyes in [Priest], *869 (D)

Mongolism—continued
atropine sensitivity and serotonin in [O'Brien et al.], *873 (D)
free amino acid, gamma globulin, and fatty acid levels in [McCoy], 611 (O)
Klinefelter's syndrome in infant with hypogenitalism and [Lanman & Hirschhorn], 546 (O)
thyrotoxicosis in mongoloid child (correspondence) [Clover], 950 (D)
Mothers
syndrome of "mothering disability" consequent to threats to survival of neonates [Rose et al.], 776 (N)
Motoneurons: See Neurons
Mucopolysaccharides
metabolism, heritable disorder of: resembling Hurler syndrome: "snorter" dwarf cattle [Lorincz], 488 (O)
Muscles
hypertonus, significance, in cerebral palsy: new concept (editorial) [Lamm], 157 (Ag)
intracellular concentrations in rat muscle: effect of cold on [Klein & Usher], 603 (O)
neuromuscular disorder, unique, characterized by hyperphosphatasemia and phosphoethanolaminuria [Lahey & Bray], 606 (O)
reflexes, neuromuscular: response, with thyronine and vitamin $B_{12}$ tolerance test for hypothyroidism [Wall et al.], 720 (N)
Muscular dystrophy
progressive: mental retardation in association with [Allen & Rodgin], *208 (Ag)
studies of serum calcium and magnesium in [Smith et al.], 714 (N)
Mycobacterium
anonymous mycobacteria [Blatman & Schaefer], 572 (O)
tuberculosis antigens: separation by ion-exchange chromatography and gel diffusion [Knifer & Heiner], 604 (O)
virulence of various known and atypical, for chickens, guinea pigs, hamsters, and mice: comparison [abst.], 294 (Ag)
Myocarditis
acute and chronic acquired primary myocardial disease [Miller & Hastreiter], 736 (N)
diphtheritic: ECG in [Ledbetter & Cannon], 608 (O)
nonrheumatic, acute: corticosteroid therapy of [Ainger et al.], 737 (N)

## N

Nasopharyngeal space
angiofibroma of [abst.], 140 (Jl)
NATIONAL CLEARINGHOUSE FOR POISON CONTROL CENTERS, COMMUNICATIONS FROM: See under COMMUNICATIONS
National Index on Deafness, Speech and Hearing, 454 (S)
Negroes
thalassemia major in negro children [Scott et al.], 754 (N)
Neomycin
prolonged oral, therapy in premature infant: effects of [Carney & Cheung], 577 (O)
Neoplasms: See also Carcinogenesis; Leukemia: Lymphosarcoma; Polycythemia vera; Tumors
use of 5-fluorouracil in management of advanced malignancies in childhood [Krivit & Bentley], *217 (Ag)
viruria in children with neoplastic disease [Hanshaw & Weller], 595 (O)
Nephrectomy: See under Kidneys
Nephritis: See also Glomerulonephritis; Nephrosis; Pyelonephritis
associated with anaphylactoid purpura [Burke et al.], 768 (N)
experimental: effect of protein-free diet on [Wasserman et al.], 644 (O)
hereditary: report of kindred [abst.], 952 (D)
Nephroblastoma
(Wilms' tumor) [abst.], 139 (Jl)
Nephrosis: See also Nephrotic syndrome
aminonucleoside: mechanism, in rats [Boggs & Stern], 559 (O)
hypothyroidism and [Etzwiler], 587 (O)
idiopathic: relationship of renal morphology to response to treatment and prognosis in [Worthen et al.], 764 (N)
infantile: congenital anomalies of renal tubules in case of [Fetterman & Feldman], *319 (S)
infantile: microcystic renal disease and its relation to (editorial) [Oliver], 312 (S)
morphologic studies of mechanism of proteinuria in [Vernier et al.], 476 (O)
steroid-induced remission in: sequence of change of immunochemically determined albumin in serum during [Oliver], 620 (O)
Nephrotic syndrome
five years' experience with steroid therapy and renal biopsy [Piel et al.], 766 (N)
nature of, occurring in young diabetics [McCrory et al.], 764 (N)
of childhood: comparison of results of current hormonal therapy with those achieved previously [Kohn & Gribetz], *373 (S)
treatment with triamcinolone [abst.], 147 (Jl)
Nerves
sciatic, injury following intragluteal injection: pathogenesis and prevention [Combes & Clark], 579 (O)

Nervous system
autonomic function, differential, in individual neonates [Richmond et al.], 769 (N)
central, activity: anaphylaxis and [Heimlich et al.], 596 (O)
central, progressive deterioration: differential diagnosis of diffuse scleroses in children [Poser], *380 (S)
neurologic findings in children of premature birth [Horner & Lubchenco], 772 (N)
neurological examination of newborn: according to work of A. Thomas [abst.], 137 (Jl)
neurological sequelae of erythroblastosis fetalis in 5-year follow-up study [Baker et al.], 565 (O)
sympathetic: patterning of autonomic regulation in infancy [Lipton et al.], 609 (O)
tumor, neurogenic, functional: biochemical observations [Greenberg et al.], 770 (N)

Neural tumors: See under Tumors

Neurology
child, present state of: cerebral palsied child [abst.], 136 (Jl)

Neuromuscular disorder
unique (? familial): characterized by hyperphosphatasemia and phosphoethanolaminuria [Lahey & Bray], 606 (O)

Neurons
motoneurons: new concept of significance of hypertonus in cerebral palsy (editorial) [Lamm], 157 (Ag)

Newborn infants
Alcaligenes faecalis pneumonitis in: 2 fatal cases, one associated with meningitis [Sherman et al.], *212 (Ag)
antibiotic therapy, prophylactic, in infants born after premature rupture of membranes [abst.], 128 (Jl)
antibody, active, production with Coxsackie B3 viremia and encephalitis [Steigman & Lipton], 537 (O)
bibirubin, hyperbilirubinemia, transient familial neonatal [Lucey et al.], 787 (N)
blood sugar in: complex reflex regulation [abst.], 149 (Jl)
cardiopulmonary reflexes and cardiac rate in early infancy [Lipton & Richmond], 609 (O)
carried beyond normal term [abst.], 140 (Jl)
"cloud baby": example of bacterial-viral interaction [Eichenwald et al.], *161 (Ag)
cloud baby: preposterous (editorial), 160 (Ag)
composition, baby: effects of milk composition on [Mosovich et al.], 791 (N)

Newborn infants—continued
congenital generalized indifference to pain: case noted in neonatal period [Gillespie & Perucca], *124 (Jl)
of diabetic mothers: neonatal deaths among infants: postmortem findings in 95 infants [Driscoll et al.], *818 (D)
diabetic offspring: body composition of, by direct analysis [Fee & Weil], 718 (N)
duodenal ulcer in childhood: 92 cases with follow-up [Michener et al.], 790 (N); *814 (D)
enteric viral flora of, and older premature infants [Maisel & Moscovici], 532 (O)
erythroblastosis of: See Erythroblastosis, Fetal
erythrocytes: distribution of fetal hemoglobin [Zipursky & Israels], 758 (N)
feeding: See under Infants, feeding
functional residual capacity and "total lung capacity": measurement [Auld et al.], 564 (O)
functional residual capacity, measured by rapid physical method [Klaus et al.], 482 (O)
heart, transverse diameter: effect of crying, asphyxia, and blood volume differences [James & Burnard], 746 (N)
hypersensitivity, delayed: unresponsiveness to passive transfer [Warwick et al.], 699 (N)
hypoglycemia, neonatal, symptomatic: associated with toxemia of pregnancy [abst.], 299 (Ag)
jaundice in: origin [Waters], 785 (N)
jaundice, neonatal: diagnosis, by patterns of serum transaminase [Kove et al.], *47 (Jl)
morbus hemolyticus and morbus hemorrhagicus as emergency conditions of [abst.], 140 (Jl)
mortality: neonatal deaths among infants of diabetic mothers: postmortem findings in 95 infants [Driscoll et al.], *818 (D)
mortality: statistics [abst.], 188 (Ag)
"mothering disability" syndrome consequent to threats to survival of neonates [Rose et al.], 776 (N)
nephrosis, infantile: See under Nephrosis
nervous system, autonomic function, differential, in individual neonates [Richmond et al.], 769 (N)
neurological examination of: according to work of A. Thomas [abst.], 137 (Jl)
nurseries: See Nurseries
$O_2$ consumption: effect of varying ambient humidity and temperature on [Miller et al.], 729 (N)

Newborn infants—continued
oxygen uptake, percutaneous [Avery], 565 (O)
perforation of Meckel's diverticulum, peritonitis, and intestinal obstruction in, with survival [Abramson], *277 (Ag)
plasminogen-plasmin system of: nature and persistence of deficiency [Quie & Wannamaker], *836 (D)
poliovirus vaccine, live attenuated: immunization of [Krugman et al.], 684 (N)
premature: See Premature infants
respiratory distress: increased tissue catabolism in [Nicolopoulos & Smith], 619 (O)
respiratory distress syndrome: reflex nature of expiratory grunt [Sutherland & Nedelman], 635 (O)
respiratory rate, tidal volume, and ventilation of, in prone and supine position [Bruns et al.], 575 (O)
respiratory studies with use of valve [Golinko et al.], 593 (O)
serum, dye-binding capacity [Porter & Waters], 623 (O)
stool water content in neonatal period [Henley & Hodes], 597 (O)
surgery, postoperative management, with balance study as adjunct to [Butterfield & Ibbott], 575 (O)
temperature, body: effect of varying ambient humidity and temperature on [Miller et al.], 729 (N)
thyroid function [Marks et al.], 549 (O)
thyroid function, neonatal [Marks et al.], 549 (O)
thyroid: $I^{131}$ labeled triiodothyronine erythrocyte uptake of mothers and [Spafford et al.], *844 (D)
tracheotomy in [Weseman], *881 (D)
tuberculosis hospital: protection of infants with use of isoniazid [abst.], 446 (S)
tumors, pyloric, palpable: prevalence and significance [Mellin et al.], 613 (O)
urinary infection in [abst.], 446 (S)
urinary sediment, cytology, in early infancy [Silver & Garell], 759 (N)
ventilation, distribution, in normal [Tooley et al.], 731 (N)
vitamin K: prophylactic use in [Vietti et al.], 759 (N)
water loads: response of newborns to [Bright & Holliday], 574 (O)
weight: De Pondere Infantum Recens Natorum [Cone], 794 (N)
NEWS AND COMMENT, 151 (Jl), 281, 302 (Ag), 452 (S), 647 (O), 799 (N), 963 (D)
Nurseries
"cloud baby": example of bacterial-viral interaction [Eichenwald et al.], *161 (Ag)
Nurseries—continued
newborn: elusive cause of epidemic nursery disease, Flavobacterium meningosepticum [George et al.], 553 (O)
newborn: experimental studies of spread of staphylococci in [Lipsitz et al.], 552 (O)
newborn: possible role of humidifying equipment in spread of infections from [abst.], 148 (Jl)
Staphylococcus aureus, Phage Type 80/81: differences in epidemiologic and clinical properties among various strains in [Eichenwald et al.], 695 (N)
Nutrition: See also Diet; Infants, feeding
deficiencies, chronic: potassium levels in spinal fluid and blood of infants with [abst.], 451 (S)
evaluation of infants fed soybean and evaporated milk formulae from birth to 3 months [Kay et al.], *264 (Ag)
growth and, of infants during their first year of life [Rueda-Williamson & Rose], 722 (N)
Nystatin
oral thrush in infancy treated with [abst.], 444 (S)

## O

Oculo-cerebro-renal syndrome
of Lowe [Richards et al.], 707 (N)
Orthopedics
congenital deformities of musculoskeletal system noted in newborn [Bick], *861 (D)
Ossification: See under Bones
Osteogenesis imperfecta
disturbance in proline metabolism in [Summer & Van Wyk], 539 (O)
treatment with 17a-ethyl-19-nortesterone [Guignard et al.], 594 (O)
Osteomyelitis
disseminated, fatal, due to anonymous mycobacterium [Yakovac & Schweigert], 646 (O)
vaccinial [abst.], 447 (S)
Otitis media
acute: study of pattern of hearing in children following [Olmsted], 772 (N)
Oxygen
consumption in newborn infants: effect of varying ambient humidity and temperature on [Miller et al.], 729 (N)
uptake, percutaneous, in infants [Avery], 565 (O)

## P

Pain
indifference, congenital generalized, to: (congenital analgia) [Gillespie & Perucca], *124 (Jl)
less painful "hypos" [Fleming], 286 (Ag)

Palsy, cerebral: See Paralysis, cerebral
Pancreas
islet-cell adenoma, hypoglycemia in 2 infants with: effect of ACTH, cortisone, and surgical removal [Nathan et al.], 717 (N)
Pancreatic cystic fibrosis
acid-base relations between spinal fluid and arterial blood in [Tappan], 732 (N)
analysis of anion tolerance tests in [Bessman et al.], 571 (O)
composition of pulmonary secretions from patients with [Potter et al.], 493 (O)
eye findings in [Denning & Bruce], 583 (O)
factors in development of respiratory insufficiency in [Polgar & Barbero], 733 (N)
hypothyroidism as complication of iodide therapy in chronic respiratory involvement of [Ruben et al.], 721 (N)
intrapulmonary gas distribution in [DeMuth et al.], 582 (O)
intrapulmonary gas mixing and distribution in children with [Harrison et al.], 530 (O)
observations on physiology of sweating in [Sibinga & Barbero], 631 (O)
protein metabolism in [Fleisher et al.], 590 (O)
serum lipoprotein levels in [Gibbs et al.], 592 (O)
serum protein paper electrophoresis in patients with [Green et al.], *365 (S)
staphylococcal antibodies in [Halbert et al.], 555 (O)
submaxillary gland enlargement in [Barbero et al.], 566 (O)
survey of school children for [Kulczycki et al.], *174 (Ag)
therapeutic regimen: evaluation [Matthews et al.], 734 (N)
thiocyanate and radioactive iodide in sweat in [Gibbs et al.], 731 (N)
tocopherol deficiency in patients with [Nitowsky et al.], 723 (N)
Papilledema
pseudopapilledema, macrocephaly, and multiple hemangiomata: heredofamilial syndrome [Riley & Smith], 780 (N)
Parabiosis
dialytic [abst.], 444 (S)
immunologic mechanism of transmission of experimental glomerulonephritis in parabiotic rats [Lang & McPherson], 761 (N)
Paralysis, cerebral
cortical lesions in [abst.], 137 (Jl)
hypertonus, significance, in: new concept (editorial) [Lamm], 157 (Ag)
mental defect, quadriplegia, and ichthyosis: 2 cases in one family [Williams & Tang], *924 (D)
Paralysis—continued
muscle tone and posture in infancy [abst.], 136 (Jl)
neurology, child: present state [abst.], 136 (Jl)
Parathyroid
hypoparathyroidism, familial, with pernicious anemia and adrenal insufficiency related to intestinal dysfunction [Cochrane et al.], 544 (O)
Pasteurella
multocida infections in man: report of 2 cases—meningitis and infected cat bite [abst.], 953 (D)
Pediatrics
attitudes in pediatric research: presidential address, 30th annual meeting of Society for Pediatric Research [Barnett], 459 (O)
future of pediatricians as medical specialists in United States: Joseph Wall memorial lecture [May], *661 (N)
of pediatric education, future of pediatrics, and abstracts [editorial], 649 (N)
pediatric education at crossroads: presidential address, 70th annual meeting of American Pediatric Society [Levine], *651 (N)
pediatricians' appraisal of their patients' intelligence [Korsch et al.], 478 (O)
Penicillin
influence on occurrence of aerobic bacterial flora of throat of children [Priest et al.], *74 (Jl)
prevention of type specific immunity to streptococcal infections due to therapeutic use of [Breese et al.], *353 (S)
prevention of type-specific immunity to streptococcal infections due to therapeutic use of [Breese et al.], 692 (N)
sensitivity: fatal exfoliative dermatitis following injection of Triple Antigen and Salk vaccine in patients with [Iams], *282 (Ag)
Peptides
difference, between normal human serum albumin and genetically determined human albumin variant [Gitlin et al.], 593 (O)
Pericarditis
constrictive: occurrence in child one month following acute pericarditis with effusion [Caddell et al.], *850 (D)
Peritoneum
intermittent peritoneal lavage (editorial) [abst.], 443 (S)
Peritonitis
perforation of Meckel's diverticulum with intestinal obstruction and: in newborn with survival [Abramson], *277 (Ag)
Pertussis: See Whooping cough

Pharyngitis
streptococcal: identification and predictive value of clinical syndromes in diagnosis of [Stillerman et al.], 693 (N)
streptococcal, in children: in relation to attack rate of rheumatic fever [Siegel et al.], 549 (O)
Phenothiazines
new phenothiazine antidote [Robertson], 290 (Ag)
Phenylketonuria: See Urine, phenylpyruvic acid
Pheochromocytoma
familial: genetic implications of [Cone], 781 (N)
Phosphatase
alkaline: tissue levels, in juvenile patients with hypophosphatasia [Rosenthal & Bonting], 629 (O)
Phosphorylase
deficiency, in glycogenosis, associated with deposit of abnormal glycogen in liver [Wagner & Sparaco], 789 (N)
Pica
etiology of [abst.], 444 (S)
Pineal gland
tumor in, associated with sodium-wasting syndrome [Mosier et al.], 616 (O)
Placenta
degeneration, detection, during pregnancy: serum-isocitric-dehydrogenase activity [abst.], 446 (S)
irradiation of: indirect effect on embryonic development [Brent], *103 (Jl)
transfer of thyroxine, evidence of: development of fetal thyroid in rats [Sobel et al.], 709 (N)
transplacental transfer of neutralizing antibodies against ECHO virus Types 1, 2, 8, and 20 [Cramblett et al.], 533 (O)
Plasmin: See Fibrinolysin
Pneumonia
giant-cell; further studies of [Mitus et al.], 615 (O)
Pneumonitis
Alcaligenes faecalis, in newborn: 2 fatal cases, one associated with meningitis [Sherman et al.], *212 (Ag)
interstitial, induced by experimental infection with H. influenzae [Sell & Shapiro], *16 (Jl)
Poisons and poisoning
accidental: "repeater problem" in [Wehrle et al.], 796 (N)
American Association of Poison Control Centers: 3rd annual meeting, Chicago, Oct. 18, 1960, 152 (Jl)
aspirin poisoning: epidemiologic study [Meyer], 796 (N)
chloroquine, acute fatal, in young children [Cann & Verhulst], 797 (N)
Communications from National Clearinghouse for Poison Control Centers, *287, 290 (Ag), *947 (D)
Poisons—continued
digoxin: treatment of acute massive digitalis poisoning by administration of chelating agent [abst.], 953 (D)
dinitrophenol derivative poisoning, acute: fatality from [Cann & Verhulst], *947 (D)
live attenuated poliovirus vaccine: immunization of newborn infants with [Krugman et al.], 684 (N)
new phenothiazine antidote [Robertson], 290 (Ag)
Salk and live polio vaccines, need for both: report of WHO Expert Committee on Poliomyelitis, 799 (N)
Salk vaccine: unpredictability of response of infants to injections of [Cramblett & Fomon], 691 (N)
toxicity of household soap and detergent products and treatment of their ingestion [Cann & Verhulst], *287 (Ag)
well water poisoning (methemoglobinuria) in infants [abst.], 140 (Jl)
Poliomyelitis
acute: vaccination status of patients in outbreak of [Merrill et al.], *857 (D)
gastric function: studies of [Sweet], 637 (O)
live poliovirus vaccine: studies on [abst.], 138 (Jl)
live virus vaccines in: historical aspects of development [Koprowski], *428 (S)
Salk vaccine and Triple Antigen: fatal exfoliative dermatitis following injection [Iams], *282 (Ag)
vaccine given to hypogammaglobulinemic patients: antibody response [Baron et al.], 566 (O)
virus ribonucleic acid: reversible inactivation of infectivity of, by salt concentration [Sprunt], 534 (O)
virus: thermal inactivation of [Arnold et al.], 564 (O)
virus, Type 1, virulent (Mahoney) and attenuated (LSc) strain: difference in avidity of cellulose resin for [Hodes et al.], 561 (O)
virus Type 3, attenuated: spread of, in school population [Wehrle et al.], 535 (O)
Polycythemia vera
primary erythrocytosis of childhood: differential diagnosis [Knock & Githens], *189 (Ag)
Polyuria
obstructive [Crotty & Berman], 581 (O)
Polyvinylpyrrolidone
infusion: treatment of neonatal jaundice in prematures with [abst.], 956 (D)
Portal hypertension: See Hypertension, portal
POSTGRADUATE EDUCATION
American Academy of Pediatrics and American Academy of General Practice: seminar on Advances in Pediatric Therapy, 303 (Ag)

POSTGRADUATE EDUCATION—continued
American Academy of Pediatrics: postgraduate courses, 454 (S)
Children's Hospital of Michigan, Detroit: residencies in pediatric pathology, 453 (S)
Columbus Children's Hospital: postgraduate course in pediatrics, 963 (D)
Memorial Center for Cancer and Allied Diseases in New York: residency in pediatric oncology, 454 (S)
New York Hospital-Cornell Medical Center: Institute for Care of Prematures, 303 (Ag)
Ohio State University College of Medicine, Dept. of Pediatrics: course in pediatrics, 963 (D)
University of California at Los Angeles, Division of Cardiology, Dept. of Pediatrics: training in pediatric cardiology, 151 (Jl)
University of Cincinnati: memorial to Dr. A. Graeme Mitchell, 151 (Jl)
University of Michigan School of Public Health, Ann Arbor: Institute on Newer Concepts of Growth and Development, 303 (Ag)
University of Michigan, University Hospital, Ann Arbor: fellowships, 281 (Ag)
University of Minnesota School of Public Health: Institute on Newer Concepts of Growth and Development, 303 (Ag)
Posture
prone and supine position in newborn infants: respiratory rate, tidal volume, and ventilation [Bruns et al.], 575 (O)
Potassium
levels in spinal fluid and blood of infants with chronic nutritional deficiencies [abst.], 451 (S)
total body, in man as determined in whole body scintillation counter: prediction of fat content [Gallup et al.], 701 (N)
Prednisolone
prolonged steroid therapy in childhood asthma [Anderson], *341 (S)
Prednisone
nephrotic syndrome—five years' experience with steroid therapy and renal biopsy [Piel et al.], 766 (N)
Pregnancy
diabetic mothers: neonatal deaths among infants of [Driscoll et al.], *818 (D)
fetal erythrocytes in circulation of pregnant women [Zipursky & Chown], 750 (N)
$I^{131}$ labeled triiodothyronine erythrocyte uptake of mothers and newborn infants [Spafford et al.], *844 (D)
irradiation of mother while shielding embryonic site: indirect effect on embryonic development [Brent & McLaughlin], *94 (Jl)
maternal influenza (Asian) and congenital deformities [abst.], 446 (S)
"mothering disability" syndrome consequent to threats to survival of neonates [Rose et al.], 776 (N)
placental degeneration, detection during: serum-isocitric-dehydrogenase activity [abst.], 446 (S)
toxemia of: symptomatic neonatal hypoglycemia associated with [abst.], 299 (Ag)
vascular clamping of pregnant uterus: amphoteric procedure for study of congenital malformations [Brent & Franklin], 778 (N)
Premature infants
bilirubin, hyperbilirubinemia: difference in incidence among, in two hospitals [Lucey et al.], 791 (N)
cerebrospinal fluid protein, markedly elevated: prognostic significance [New & Bauer], 618 (O)
enteric viral flora of newborn and older [Maisel & Moscovici], 532 (O)
feeding: See Infants, feeding
gastric acidity in first ten days of life of [Ames], *252 (Ag)
hyperbilirubinemia and brain damage: lack of association between [Shiller & Silverman], 496 (O)
hyperbilirubinemia, neonatal: sequelae at age one year [Heimer et al.], 495 (O)
jaundice, neonatal: treatment with polyvinylpyrrolidone infusion [abst.], 956 (D)
neomycin, prolonged oral therapy in: effects [Carney & Cheung], 577 (O)
nephrosis, infantile: See under Nephrosis
neurologic findings, specific, in children of premature birth [Horner & Lubchenco], 772 (N)
respiratory distress syndrome (Usher), 730 (N)
respiratory distress syndrome: early fluid administration [Bauman], 567 (O)
respiratory distress syndrome of prematurity: management of metabolic changes [Usher], 485 (O)
reticular dysgenesia [abst.], 448 (S)
survival: influence of intracellular ion concentrations on cellular enzyme activities and [Yamashita & Metcoff], 715 (N)
urinary concentration in newborn [Strauss], 635 (O)
Progestational steroids: See under Steroids
PROGRESS IN PEDIATRICS
studies on attenuated measles-virus vaccine: general summary and evaluation

PROGRESS IN PEDIATRICS—continued
of results of vaccination [Katz et al.], *942 (D)
treatment of tuberculosis in children (Committee on Tuberculosis and Respiratory Diseases in Children, American Trudeau Society), *424 (S)
Proline
metabolism, disturbance, in osteogenesis imperfecta [Summer & Van Wyk], 539 (O)
Proteins
metabolism in cystic fibrosis of pancreas [Fleisher et al.], 590 (O)
metabolism, inborn errors of: homograft survival in children with [Schubert et al.], 474 (O)
urine: See under Urine
Pseudohermaphroditism: See Hermaphroditism
Pseudotumors
cerebri (benign intracranial hypertension) during treatment of asthma by adrenal steroids [abst.], 147 (Jl)
Psychology
aspects, psychologic, of bronchial asthma [Kripke], *935 (D)
children's ideas about etiology of bodily illness [Gellert], 774 (N)
disorders, psychological: retrospective study of effects of infant experiences on development of [Richmond et al.], 775 (N)
Puberty, precocious: See also Adrenogenital syndrome
endocrine effects of interstitial cell tumor of testis in 7-year-old child [Camin et al.], *389 (S)
Pulmonary valve
stenosis: obstructive ventricular hypertrophy causing functional aortic and [Lurie et al.], 743 (N)
Pulmonary veins: See Venous system
Purpura
anaphylactoid: nephritis associated with [Burke et al.], 768 (N)
fulminans, thrombotic thrombocytopenic purpura, and Shwartzman phenomenon [Feldman et al.], 587 (O)
thrombocytopenia, eczema, and recurrent infections: Aldrich's syndrome [Cassimos et al.], *914 (D)
thrombocytopenic, idiopathic: platelet-stimulating properties of human plasma [Schulman et al.], 747 (N)
Pyelonephritis
acute and chronic, in children, diagnosis: use of simple spread plate technique for colony counting [Hinkle et al.], *333 (S)
response of infected urinary tract to bacterial pyrogen [abst.], 448 (S)
Pylorus
stenosis, infantile hypertrophic: myenteric plexus in [abst.], 445 (S)
stenosis, medical treatment of: controlled evaluation [Mellin et al.], 613 (O)
tumors, palpable, in newborn: prevalence and significance [Mellin et al.], 613 (O)
Pyridoxine: See Vitamin $B_6$
Pyrogens
bacterial: response of infected urinary tract to [abst.], 448 (S)

## Q

Quadriplegia
mental defect, ichthyosis, and: 2 cases in one family [Williams & Tang], *924 (D)

## R

Radiation
how much is too much? (editorial) [Robinson], 1 (Jl)
indirect effect of irradiation on embryonic development: I [Brent & McLaughlin], *94 (Jl); II [Brent], *103 (Jl)
Reflexes
cardiopulmonary, and cardiac rate in early infancy [Lipton & Richmond], 609 (O)
neuromuscular: response, with triiodothyronine and vitamin $B_{12}$ tolerance test for hypothyroidism [Wall et al.], 720 (N)
Residences: See under POSTGRADUATE EDUCATION
Respiration
acidosis, respiratory: See Acidosis
carbon monoxide diffusion capacity in evaluation of pulmonary function in infants and children [Stahlman], 527 (O)
chronic respiratory involvement of cystic fibrosis: hypothyroidism as complication of iodide therapy in [Ruben et al.], 721 (N)
functional residual capacity and "total lung capacity" in newborn infant [Auld et al.], 564 (O)
functional residual capacity in newborn infants measured by rapid physical method [Klaus et al.], 482 (O)
gas exchange in children: standard values [Filler], 589 (O)
hyperventilation experiments in children with asthma and neurovegetative dystonia [abst.], 450 (S)
inspired air, mixing and distribution: quantitative studies in 100 healthy children [Vallbona et al.], 639 (O)
insufficiency, development, in cystic fibrosis [Polgar & Barbero], 733 (N)
intrapulmonary gas distribution in cystic fibrosis [Demuth et al.], 582 (O)
intrapulmonary gas mixing and distribution in children with cystic fibrosis [Harrison et al.], 530 (O)

Respiration—continued
mechanics of, and lung volumes in congenital heart disease [Cook et al.], 579 (O)
positive pressure breathing during childhood: bronchoscopy with [abst], 301 (Ag)
pulmonary function studies in 1,163 healthy school children [Lyons et al.], *196 (Ag)
respiratory distress: increased tissue catabolism in newborn infants with [Nicolopoulos & Smith], 619 (O)
respiratory distress syndrome: electrocardiogram in [Keith et al.], 730 (N)
respiratory distress syndrome, neonatal: reflex nature of expiratory grunt as feature of [Sutherland & Nedelman], 635 (O)
respiratory distress syndrome of premature infants: early fluid administration [Bauman], 567 (O)
respiratory distress syndrome of prematurity [Usher], 730 (N)
respiratory distress syndrome of prematurity: management of metabolic changes in [Usher], 485 (O)
valve for respiratory studies in neonatal period [Golinko et al.], 593 (O)
Respiratory tract
bacteriology of secretions and sputum in normals and chronic bronchitis [abst.], 447 (S)
disease, chronic, associated with multiple circulating precipitins to cow's milk [Heiner & Sears], 500 (O)
illness in children: percentage contribution of different viruses to [Parrot et al.], 690 (N)
Reticuloendothelial system
reticular dysgenesia [abst.], 448 (S)
Rh factors
Rh-antibody titer: premature induction and (editorial) [abst.], 442 (S)
Rheumatic fever
acute, early: anemia of [Mauer & Schinlever], 612 (O)
attack rate of: study of streptococcal pharyngitis in children [Siegel et al.], 549 (O)
diagnosis, in absence of carditis [Lim & Mitty], 700 (N)
indices of activity of, in patients treated with steroids [Walker & O'Brien], 735 (N)
streptococcal infections in rheumatic children and their siblings [Diehl et al.], 583 (O)
Rheumatic heart disease
nature of Aschoff body [Wagner], 556 (O)
Rickets
vitamin D-resistant, with aminoaciduria and with hyperphosphaturia [Calcagno & Rubin], 716 (N)
Rinderpest
measles, distemper and Rinderpest complex: preliminary vaccination studies [Adams et al.], 689 (N)
Ringworm
of scalp, in children: treatment with griseofulvin [Bensel], 131 (Jl)
Roentgen rays
and actinomycin D: treatment of children with disseminated Wilms' tumor by [Farber et al.], 795 (N)
indirect effect of irradiation on embryonic development: I [Brent & McLaughlin], *94 (Jl); [Brent], *103 (Jl)
roentgenologic signs of increased intracranial pressure in children and adolescents [abst.], 956 (D)

## S

Salicylamide
suspension and acetylsalicylic acid: antipyretic activity, in pediatrics (206 cases) [Borovsky], *23 (Jl)
Salicylates
intoxication: use of exchange transfusion in treatment of [Leikin & Emmanouilides], 608 (O)
Salivary gland
virus disease [abst.], 140 (Jl)
Salk vaccine: See under Poliomyelitis
Salmonella
and Shigella in monkeys: problem of importing pathogenic intestinal bacteria [abst.], 140 (Jl)
Scalp
ringworm of, in children: treatment with griseofulvin [Bensel], 131 (Jl)
Schilder's disease
differential diagnosis of diffuse scleroses in children [Poser], *380 (S)
School children
pediatric management of school learning of underachievement [abst.], 954 (D)
physical "working capacity" in normal California and Swedish children [Adams et al.], 728 (N)
pulmonary function studies in: age groups from 6 to 14 years [Lyons et al.], *196 (Ag)
spread of attenuated poliovirus Type 3 in school population [Wehrle et al.], 535 (O)
survey of, for cystic fibrosis [Kulczycki et al.], *174 (Ag)
Sciatic nerve: See Nerves, sciatic
Sclerosis
diffuse sclerosis in children: differential diagnosis [Poser], *380 (S)
Seborrhea
dermatitis of scalp: pediatric management of [Seldowitz], *875 (D)
Seizure chart
simplified [Sayers], 129 (Jl)

Seminar. University of Colorado Medical Center: See University of Colorado
Septicemia
sepsis and jaundice in infancy [Bernstein & Brown], 569 (O)
Serotonin
atropine sensitivity and, in mongolism [O'Brien et al.], *873 (D)
Serum: See under Blood
Serum albumin
concentration, sequence of changes, during steroid-induced remission in nephrosis [Oliver], 620 (O)
peptide difference between normal human serum albumin and genetically determined human albumin variant [Gitlin et al.], 593 (O)
Serum proteins: See Blood proteins
Sex
chromatin and sex chromosomes in sexual anomalies in man [Grumbach et al.], 548 (O)
development in fetal rats: effects of progestational steroids on [Nolan et al.], 620 (O)
differentiation: studies in male pseudohermaphroditism and other abnormalities of [Alexander & Ferguson-Smith], 563 (O)
Shigella
and Salmonella in monkeys: problem of importing pathogenic intestinal bacteria [abst.], 140 (Jl)
Sickle-cell disease: See Anemia, sickle-cell
Skin
dermatoses, pediatric: simplified formulary for topical management [Litt], 930 (D)
grafts: See Skin, transplantation
intradermal-skin test: evaluation, to cat-scratch disease antigen [Warwick & Good], *241 (Ag)
oxygen uptake, percutaneous, in newborn infants [Avery], 565 (O)
transplantation: homograft survival in children with inborn errors of protein metabolism [Schubert et al.], 474 (O)
Soap and detergents
toxicity of household, products and treatment of their ingestion [Cann & Verhulst], *287 (Ag)
Society for Pediatric Research
election of officers, 302 (Ag)
presidential address, 30th annual meeting: attitudes in pediatric research [Barnett], 459 (O)
transactions, 30th annual meeting: abstracts, 465-646 (O)
Sodium
-wasting syndrome: tumor in pineal region associated with [Mosier et al.], 616 (O)
Southern Society for Pediatric Research
meeting: Vanderbilt University School of Medicine, Tennessee, Oct. 1960, 648 (O)
Soybean
and evaporated milk formulae: evaluation of infants, from birth to 3 months [Kay et al.], *264 (Ag)
Specialism
future of pediatricians as medical specialists in United States: Joseph Wall Memorial Lecture [May], *661 (N)
Speech
immature, incidence of [Oppel et al.], 773 (N)
Spielmeyer-Vogt disease
juvenile cerebroretinal degeneration: blood and EEG findings in family of 10 members [Harlem], *918 (D)
Spine
vertebral erosion secondary to cardiomegaly: case report of aberrant left coronary artery [Canby], *121 (Jl)
Splenectomy
antibody response to VI antigen administered subcutaneously and intravenously following [Huang et al.], 699 (N)
relationship of autologous and donor red cell survival to clinical course in thalassemia before and after [Wolff et al.], 755 (N)
Stains and staining
fluorescent antibody, of nasopharyngeal smears: diagnosis of pertussis by [Whitaker et al.], 678 (N)
Staphylococcus
antibodies in cystic fibrosis of pancreas [Halbert et al.], 555 (O)
antigens, multiple staphylococcal: use in hemagglutination test [Florman et al.], 591 (O)
aureus, phage Type 80/81: differences in epidemiologic and clinical properties [Eichenwald et al.], 695 (N)
"cloud baby": example of bacterial-viral interaction [Eichenwald et al.], *161 (Ag)
coagulase-positive: aerobic bacterial flora of throat of children given prophylactic antibiotics [Priest et al.], *74 (Jl)
in dairy cattle: recurrent furunculosis due to: association with human infection [abst.], 207 (Ag)
in newborn nurseries: experimental studies of spread of [Lipsitz et al.], 552 (O)
in newborn nurseries: possible role of humidifying equipment in spread of [abst.], 148 (Jl)
infection: protection of mice by staphylococcal extract against [Florman et al.], 551 (O)
staphylococcal satellite proteolysis (Muller phenomenon): identification in human serum of inhibitor of [Quie & Wannamaker], 490 (O)

Staphylococcus—continued
toxin: cell injury and repair following, as seen with phase cinematography [Felton & Pomerat], 683 (N)
Starvation
influence of prior feeding on survival of animals subjected to [Hill et al.], 793 (N)
Stein-Leventhal syndrome
possible cause for hirsutism in adolescent girls [Hayles et al.], *31 (Jl)
Steroids: See also Adrenocortical hormones; Hormones; and specific steroids
and corticotropin in treatment of minor motor epilepsy [Pauli et al.], 621 (O)
hormones: atypical course of chickenpox in children treated with [abst.], 449 (S)
in adrenal and gonadal tissues: patterns of synthesis [Villee], 489 (O)
indices of activity of rheumatic fever in patients treated with [Walker & O'Brien], 735 (N)
induced remission in nephrosis: sequence of changes in serum albumin concentration during [Oliver], 620 (O)
progestational: effects on sexual development in fetal rat [Nolan et al.], 620 (O)
therapy: nephrotic syndrome — five years' experience with renal biopsy and [Piel et al.], 766 (N)
Stings: See Insects, stings
Stomach: See also Pylorus
function, gastric, in poliomyelitis [Sweet], 637 (O)
gastric acidity in first ten days of life of prematurely born baby [Ames], *252 (Ag)
Streptococcus
antibody titers in patients with chronic glomerulonephritis [Ayoub et al.], 766 (N)
bacitracin disk and fluorescent antibody techniques in identifying hemolytic, group A beta- [Streamer et al.], 552 (O)
infections: See also Rheumatic fever
infections in rheumatic children and their siblings [Diehl et al.], 583 (O)
pharyngitis: identification and predictive value of clinical syndromes in diagnosis of [Stillerman et al.], 693 (N)
pharyngitis, in children, in relation to attack rate of rheumatic fever [Siegel et al.], 549 (O)
prevention of type specific immunity to streptococcal infections due to therapeutic use of penicillin [Breese et al.] *353 (S)
prevention of type-specific immunity to streptococcal infections due to therapeutic use of penicillin [Breese et al.], 692 (N)
Streptococcus—continued
rapid identification by fluorescent antibody technique of homolytic, group A beta-[Warfield et al.], 642 (O)
renal lesions in mice after exposure to hemolytic [Hinkle et al.], 560 (O)
significance of changing pattern of beta-hemolytic [Bernstein & Stillerman], 570 (O)
Streptokinase-Streptodornase
anti-inflammatory effect of buccal [abst.], 135 (Jl)
Streptomagma
treatment of diarrheal disease of children with [abst.], 140 (Jl)
Streptomycin
importance of individualization of chemotherapy in childhood tuberculosis [Levy et al.], 695 (N)
Submaxillary gland
enlargement in cystic fibrosis [Barbero et al.], 566 (O)
Sulfonamides
saluretic: relation between molecular structure and biological activity [Crawford et al.], 762 (N)
Sweat
thiocyanate and radioactive iodide in sweat in cystic fibrosis patients [Gibbs et al.], 731 (N)
Sweating
physiology of, in cystic fibrosis [Sibinga & Barbero], 631 (O)
sickness [Davison], 934 (D)
Syphilis
antibiotics other than penicillin in treatment of [abst.], 142 (Jl)

## T

Taussig-Bing complex
incomplete transposition of great vessels: physiological study [Cayler & Honick], 739 (N)
Testes
interstitial cell tumor of testis in seven-year-old child [Camin et al.], *389 (S)
Testosterone
-induced remission in aplastic anemia [Shahidi & Diamond], 753 (N)
Tetracycline
influence on occurrence of aerobic bacterial flora of throat of children [Priest et al.], *74 (Jl)
Tetratology Society
newly organized, 452 (S)
Thalassemia: See Anemia, erythroblastic
Thirst
influence of prior feeding on survival of animals subjected to [Hill et al.], 793 (N)
Throat
aerobic bacterial flora in, of children given prophylactic antibiotics [Priest et al.], *74 (Jl)
Thrombocytopenic purpura: See Purpura

Thromboembolism
complicating ventriculovenous shunt procedures [Talner et al.], 740 (N)
Thrush
oral, in infancy treated with nystatin [abst.], 444 (S)
Thymus
in mouse viral leukemia [Levinthal et al.], 557 (O)
Thyroid
activity: erythrocyte glucose-6-phosphate dehydrogenase activity related to [Pearson], 622 (O)
chemical growth of fetal: dynamics of, in Rhesus monkey [Pickering et al.], 507 (O)
dehalogenase deficiency in, of goitrous cretin and in heterozygous carriers (abst.], 446 (S)
disease: in-vitro uptake of $P^{32}$ by red blood cells in [abst.], 442 (S)
fetal, development, in rats: evidence for placental transfer of thyroxine [Sobel et al], 709 (N)
function, neonatal [Marks et al.], 549 (O)
hypothyroidism and nephrosis [Etzwiler], 587 (O)
hypothyroidism: complication of iodide therapy in children with chronic respiratory involvement of cystic fibrosis [Ruben et al.], 721 (N)
hypothyroidism: triiodothyronine and vitamin $B_{12}$ tolerance test and diagnostic pathological reflexes [Wall et al.], 720 (N)
$I^{131}$ labeled triiodothyronine erythrocyte uptake of mothers and newborn infants [Spafford et al.], *844 (D)
Thyroiditis
chronic, in children [abst.], 138 (Jl)
Thyroxine
placental transfer, evidence: development of fetal thyroid in rats [Sobel et al.], 709 (N)
Tick fevers
Colorado tick fever [Silver et al.], 689 (N)
Tinea
capitis in children: treatment with griseofulvin [Bensel], 131 (Jl)
Tocopherols: See Vitamins, E
Toxic substances: See Poisons and poisoning
Toxins and antitoxins
cell injury and repair following staphylococcus toxin as seen with phase cinematography [Felton & Pomerat], 683 (N)
Toxoplasmosis
acquired, in child [Neumann et al.], *117 (Jl)
Tracheotomy
in newborn [Weseman], *881 (D)
prevention of pulmonary complications in infants with, by modification of cannula [abst.], 143 (Jl)
Transaminase, in blood: See Blood, transaminase
Transferases
galactose-1-phosphate uridyl transferase: relationship to glucose-6-phosphate dehydrogenase in red blood cells [Tannenbaum & Hsua], 637 (O)
glucuronosyl, inhibition, by progestational agents from pregnant serum [Hsia et al.], 599 (O)
glucuronyl: solubilization and some properties of [Halac & Ploski], 594 (O)
Transplantation: See also Skin, transplantation
bone marrow: storage of fetal liver for [Githens et al.], 521 (O)
Triamcinolone
treatment of nephrotic syndrome with [abst.], 147 (Jl)
Triiodothyronine
$I^{131}$ labeled, erythrocyte uptake of mothers and newborn infants [Spafford et al.], *844 (D)
and vitamin $B_{12}$ tolerance test for hypothyroidism: diagnostic pathological reflexes [Wall et al.], 720 (N)
Triple Antigen (DPT)
and Salk vaccine: fatal exfoliative dermatitis following injection of [Iams], *282 (Ag)
Tryptophan
metabolism, abnormalities of: in children with mongolism [O'Brien et al.], 540 (O)
Tuberculin
allergy evaluation in primary pulmonary tuberculosis in young children [Blatman et al.], 697 (N)
sensitivity: experimental and epidermiologic basis for interpretation of [abst.], 298 (Ag)
sensitivity to atypical: its relation to tuberculin skin-test reversion [Mellman], 554 (O)
Tuberculosis
antibodies, precipitating, in human [Heiner et al.], 698 (N)
BCG vaccination: lupus vulgaris following [abst.], 300 (Ag)
chemotherapy, individualization: importance in childhood tuberculosis [Levy et al.], 695 (N)
infection with, in institutions: liability following damages due to medical procedures or their omission [abst.], 300 (Ag)
meningitis, tuberculous: short-term antimicrobial therapy of [Kendig & Burch], 696 (N)
prophylactic isoniazid: protection of infants in tuberculosis hospital [abst.], 446 (S)
pulmonary, primary, in young children: microbiological, x-ray, and tuberculin

Tuberculosis—continued
allergy evaluation [Blatman et al.], 697 (N)
treatment of, in children [American Trudeau Society], *424 (S)
Tumors: See also specific names of tumors
in pineal region associated with sodium-wasting syndrome [Mosier et al.], 616 (O)
interstitial cell tumor of testis in 7-year-old child [Camin et al.], *389 (S)
neural: studies of catecholamine metabolism [Voorhess & Gardner], 641 (O)
neurogenic, functional: biochemical observations [Greenberg et al.], 770 (N)
pyloric, palpable, in newborn: prevalence and significance [Mellin et al.], 613 (O)
Wilms': See Kidneys, tumors
Twins
reciprocal skin grafts in pair of twins showing blood chimerism [abst.], 441 (S)
unusual frequency of twin births in family [abst.], 140 (Jl)
Tyrosine
"tyrosinosis" in infant [Berry & Sutherland], 571 (O)
urine: See under Urine

U

Ukari syndrome
transient tubular nephropathy [Fellers et al.], 763 (N)
Ulcer
duodenal, in childhood: study of 92 cases with follow-up [Michener et al.], 790 (N); *814 (D)
University of Colorado Medical Center
seminar: congenital virilizing adrenal hyperplasia [Klevit], *415 (S)
seminar: psychologic aspects of bronchial asthma [Kripke], *935 (D)
Urinary tract
infected: response, to bacterial pyrogen [abst.], 448 (S)
Urination, incontinence: See Enuresis
Urine: See also Albuminuria; Polyuria
albumin in: See Albuminuria
aldosterone: bioassay, using total body K/Na ration in normal mouse receiving saline [Cheek & Holt], 577 (O)
aldosterone, elevated values: fatal hypertension in child with, and renal arterial malformation [Cherry & Yuceoglu], 578 (O)
aminoaciduria: vitamin D-resistant rickets with, and without hyperphosphaturia [Calcagno & Rubin], 716 (N)
catecholamines, increased excretion: ganglioneuroblastoma associated with [Stickler et al.], 634 (O)
Urine—continued
C-19-ketosteroids, patterns, in children: response to corticotropin stimulation [Paulsen & Sobel], 546 (O)
concentration in newborn premature infants [Strauss], 635 (O)
cultures, colony counting, technique: in diagnosis of acute and chronic pyelonephritis in children [Hinkle et al.], *333 (S)
cytology of urinary sediment in early infancy [Silver & Garell], 759 (N)
infection, urinary, in newborn [abst.], 446 (S)
maple syrup urine disease: treatment of case of [Snyderman et al.], 633 (O)
methemoglobin, well water poisoning in infants: frequency and clinical manifestations of [abst.], 140 (Jl)
oxalates, primary hyperoxaluria: conversion of glycine to oxalate in [abst.], 445 (S)
phenylpyruvic acid: importance of early diagnosis and treatment of phenylketonuria (editorial) [abst.], 296 (Ag)
phenylpyruvic acid: phenylketonuria in infant monkeys [Waisman & Harlow], 710 (N)
phenylpyruvic acid: phenylketonuria with normal intelligence [Allen et al.], 563 (O)
phosphates: vitamin D-resistant rickets with aminoaciduria and without hyperphosphaturia [Calcagno & Rubin], 716 (N)
proteinuria, mechanism: morphologic studies [Vernier et al.], 476 (O)
tryptophan metabolites, excretion, by patients with congenital hypoplastic anemia [Smith et al.], 752 (N)
tyrosinuria: enzymatic mechanism for [Kretchmer], 605 (O)
viruria in children with neoplastic disease [Hanshaw & Weller], 595 (O)
Uterus
vascular clamping of pregnant uterus: amphoteric procedure for study of congenital malformations [Brent & Franklin], 778 (N)

V

Vaccination
attenuated measles-virus vaccine: evaluation of results of [Katz et al.], *942 (D)
osteomyelitis, vaccinial [abst.], 447 (S)
preliminary, studies of measles, distemper, and Rinderpest complex [Adams et al.], 689 (N)
status of patients in outbreak of acute poliomyelitis [Merrill et al.], *857 (D)
Vaccines: See also specific diseases, as Poliomyelitis
Triple Antigen and Salk vaccine injection: fatal exfoliative dermatitis following [Iams], *282 (Ag)

Veins
pulmonary venous obstruction in infants with anomalous pulmonary venous drainage [Hauck et al.], 744 (N)
pulmonary venous return, obstruction, in infancy [Neill], 741 (N)
Venous system
primitive embryological anomalies of systemic and pulmonary venous return [Pelargonio & Rudolph], 622 (O)
Ventilation
distribution of, in normal newborn infants [Tooley et al.], 731 (N)
Verbetral erosion: See Spine
Vibrio
vibrionic enteritis in infants [Wheeler & Borchers], 677 (N)
Virilism
congenital virilizing adrenal hyperplasia [Klevit], *415 (S)
Viruses: See also under specific viral diseases, as Poliomyelitis
adenovirus antigenically related to Types 9 and 15: illnesses in children infected with [Cramblett et al.], 691 (N)
antibody, human viral: paper-radioactive virus test as new method for detection of [Hodes et al.], 685 (N)
"cloud baby": example of bacterial-viral interaction [Eichenwald et al.], *161 (Ag)
Coxsackie B3 viremia and encephalitis: active antibody production by newborn with [Steigman & Lipton], 537 (O)
cytomegalic inclusion disease: virologic and clinical investigations on [Weller et al.], 469 (O)
different: percentage contribution of, to respiratory tract illness [Parrot et al.], 690 (N)
ECHO 9 exanthema: outbreak, traced to children's party [Takos et al.], *360 (S)
ECHO 9 infection: effect on fetus [Peterson & Glicklich], 779 (N)
ECHO-virus infection: clinical spectrum [abst.], 954 (D)
ECHO viruses 1, 2, 8, and 20: transplacental transfer of neutralizing antibodies against [Cramblett et al.], 533 (O)
enteric viral flora of newborn and older premature infants: 2-year survey [Maisel & Moscovici], 532 (O)
equine abortion virus (EAV): characterization, as research laboratory virus [Bracken], 525 (O)
erythema infectiosum in children: failure to isolate virus from specimens [Cramblett & Heeren], 580 (O)
urinary excretion of, in children with neoplastic disease [Hanshaw & Weller], 595 (O)
Viruses—continued
viral monocontamination in gnotobiotic (germ-free) animal [Walcher et al.], 642 (O)
Vitamins
$B_6$ deficiency: cerebral energy metabolism in [McKhann & Tower], 540 (O)
$B_{12}$ absorption: specific deficiency of [Colle et al.], 523 (O)
$B_{12}$ and triiodothyronine tolerance test for hypothyroidism: diagnostic pathological reflexes [Wall et al.], 720 (N)
D and cortisol: in vitro studies of calcium transfer across intestinal wall in relation to action of [Harrison & Harrison], 704 (N)
D in serum: idiopathic hypercalcemia in case report with assays of [abst.], 148 (Jl)
D-resistant rickets with aminoaciduria and without hyperphosphaturia [Calcagno & Rubin], 716 (N)
E: tocopherol deficiency in patients with cystic fibrosis of pancreas [Nitowsky et al.], 723 (N)
K: prophylactic use of, in newborn infant [Vietti et al.], 759 (N)

## W

Warts
evaluation of treatment by hypnosis [abst.], 442 (S)
Water
body, total, and its distribution [Hanna], 723 (N)
deprivation in infants on high and low protein diets: water balance during [Drecher et al.], 703 (N)
loads: response of newborn to [Bright & Holliday], 574 (O)
well, poisoning (methemoglobinuria) in infants [abst.], 140 (Jl)
Water-electrolyte balance
significance of concentrations of electrolytes in stool water during infantile diarrhea [Finberg et al.], *809 (D)
Weltmann reaction: See Blood coagulation
WHO Expert Committee on Poliomyelitis
report: need for both Salk and live polio vaccines, 799 (N)
Whooping cough
diagnosis of pertussis by fluorescent antibody staining of nasopharyngeal smears [Whitaker et al.], 678 (N)
Wilms' tumor: See Kidneys, tumors
Wolff-Parkinson-White syndrome
spectrum of, in infants and children [Hosier & Wooley], 598 (O)
Working capacity
physical, in normal California and Swedish school children [Adams et al.], 728 (N)
